Grade 7 — Weekly review — Module 3 Week 1 — TEACHER KEY

Date: 2026-12-18

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Add and subtract signed integers

1. -2 + 9 = ? (1 points)

Expected answer / rubric: 7

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

ELA — Pronouns and reference clarity

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

Expected answer / rubric: Relevant response and an accurate example of the day’s skill.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Physical Sciences — Physical properties & states of matter

1. What distinguishes a solid from a liquid in a simple particle model? (1 points)

Expected answer / rubric: Solid particles maintain positions relative to neighbors; liquid particles move past one another.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Social Studies — Greek geography + polis

W1 background: A city-state/community with its own political organization. Mountains could separate communities; seas supported travel/trade. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Model Greek geography and city-state connections. (3 points)

Expected answer / rubric: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Location/barriers/routes and plausible effects without geographic determinism.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Art — Beat and rhythm

Read before you begin

Beat is a regular pulse; rhythm organizes durations around it. Rhythm can change while beat remains steady. Use clapping or gentle tapping.

1. Are beat and rhythm identical? (2 points)

Expected answer / rubric: No; beat is pulse and rhythm organizes durations.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Sciences — Groups and social roles

Read before you begin

Sociology studies social relationships, groups, and institutions. A role involves expected actions in a setting. One person may be a learner, sibling, friend, and teammate.

1. Can someone have several roles? (2 points)

Expected answer / rubric: Yes; roles depend on context and relationships.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Computer Science — Algorithms and precision

Read before you begin

An algorithm is an ordered procedure for a task. Instructions must make order and choices clear. Testing with another person reveals missing or ambiguous steps.

1. Why test an algorithm? (2 points)

Expected answer / rubric: To find unclear, missing, or incorrect steps.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Skills — Seeds and plant needs

Read before you begin

Garden plants need suitable water, light, temperature, nutrients, and space. Germination and later growth differ. Follow local planting guidance and avoid unknown plants and chemicals.

1. Why label planting conditions? (2 points)

Expected answer / rubric: So observations can be interpreted and compared.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.
