Grade 7 — Weekly review — Module 5 Week 1 — TEACHER KEY

Date: 2027-02-26

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Multiply and divide signed numbers

1. -3 x 13 = ? (1 points)

Expected answer / rubric: -39

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

ELA — Adjectives and adverbs

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

Expected answer / rubric: Relevant response and an accurate example of the day’s skill.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Physical Sciences — Forces, motion, and energy

Read before you begin

Forces can change motion. Energy is transferred or transformed during interactions. A useful explanation identifies the system, relevant forces, and what is measured.

1. What should a force model identify? (2 points)

Expected answer / rubric: The object/system and relevant pushes or pulls.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Social Studies — Byzantine Empire

W1 background: It continued the eastern Roman political tradition, with Constantinople as a central city. Its position connected important land/sea routes and offered strategic advantages. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Explain continuity and change in Byzantine history. (3 points)

Expected answer / rubric: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). One Roman continuity, one change, context, and evidence.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Art — Art as historical evidence

Read before you begin

Artwork can provide evidence about a place and time but does not represent everyone. Ask who made it, for whom, and why. Distinguish observation from historical inference.

1. Can one artwork represent an entire society? (2 points)

Expected answer / rubric: No; its context and limits matter.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Sciences — Fairness and equality

Read before you begin

Ethics considers how people ought to act. Equal shares and fair treatment are related but not identical; relevant needs and responsibilities can matter. Ethical questions may involve competing considerations.

1. Can equal treatment and fair treatment differ? (2 points)

Expected answer / rubric: Yes; relevant needs or circumstances can justify different support.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Computer Science — Variables and scores

Read before you begin

Variables store values that can change. A score needs a known starting value and clear update rules. Test restarts as well as successful play.

1. Why initialize a variable? (2 points)

Expected answer / rubric: To establish a known starting value.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Skills — Handwashing and hygiene

Read before you begin

Hygiene routines support comfort and reduce spread of some germs. Use reliable guidance and adapt routines to individual needs. Hand care matters after gardening, animal care, and before food preparation.

1. Why wash hands after gardening? (2 points)

Expected answer / rubric: Soil can carry contaminants that should not be transferred to food or the face.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.
