Grade 7 — Weekly review — Module 5 Week 1

Date: 2027-02-26

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Multiply and divide signed numbers

1. -3 x 13 = ? (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

ELA — Adjectives and adverbs

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Physical Sciences — Forces, motion, and energy

Read before you begin

Forces can change motion. Energy is transferred or transformed during interactions. A useful explanation identifies the system, relevant forces, and what is measured.

1. What should a force model identify? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Social Studies — Byzantine Empire

W1 background: It continued the eastern Roman political tradition, with Constantinople as a central city. Its position connected important land/sea routes and offered strategic advantages. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Explain continuity and change in Byzantine history. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Art — Art as historical evidence

Read before you begin

Artwork can provide evidence about a place and time but does not represent everyone. Ask who made it, for whom, and why. Distinguish observation from historical inference.

1. Can one artwork represent an entire society? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Life Sciences — Fairness and equality

Read before you begin

Ethics considers how people ought to act. Equal shares and fair treatment are related but not identical; relevant needs and responsibilities can matter. Ethical questions may involve competing considerations.

1. Can equal treatment and fair treatment differ? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Computer Science — Variables and scores

Read before you begin

Variables store values that can change. A score needs a known starting value and clear update rules. Test restarts as well as successful play.

1. Why initialize a variable? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Life Skills — Handwashing and hygiene

Read before you begin

Hygiene routines support comfort and reduce spread of some germs. Use reliable guidance and adapt routines to individual needs. Hand care matters after gardening, animal care, and before food preparation.

1. Why wash hands after gardening? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)
