Grade 7 — Weekly review — Module 6 Week 3

Date: 2027-04-16

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Solve equations

1. Solve x + 5 = 14. (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

ELA — Combine sentences precisely

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Physical Sciences — Stars, galaxies, and scale

Read before you begin

The Sun is a star in the Milky Way galaxy. A galaxy contains many stars and other matter. Astronomical models must make their units and scale limits clear.

1. Is the solar system the same as a galaxy? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Social Studies — Medieval/imperial Asia overview

W3 background: It includes diverse societies and changing institutions. Trade, movement, diplomacy, religion, and conflict linked regions. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Compare two Asian communities using a defined framework. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Art — Dance and sequences

Read before you begin

Dance organizes movement through space and time. Sequences repeat, reverse, or vary like patterns. Respect named traditions and use safe original adapted movement.

1. How can dance resemble an algorithm? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Life Sciences — Christianity

Read before you begin

Christianity developed from the life and teachings of Jesus in the first-century eastern Mediterranean. Christians use the Bible and belong to diverse churches and traditions with different interpretations and practices.

1. Is Christianity a uniform set of practices? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Computer Science — Interfaces and accessibility

Read before you begin

Interfaces connect people and systems. Labels, readable contrast, alternative inputs, and clear feedback improve usability. Decoration should support comprehension.

1. Why label controls clearly? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Life Skills — Anatomy and reproduction

Read before you begin

Ovaries contain egg cells; testes produce sperm cells after puberty begins. A pregnancy can begin when a sperm fertilizes an egg, usually in a fallopian tube, and the resulting developing structure implants in the uterus. Puberty does not mean someone is ready to become a parent. Private body parts have correct anatomical names, and questions deserve accurate respectful answers. Grade 7 extension: sexually transmitted infections can spread through sexual contact, sometimes without symptoms. Avoiding sexual contact prevents sexual transmission; correctly used condoms reduce but do not eliminate infection risk. Other birth-control methods do not protect against STIs. A trusted adult or health professional can answer questions.

1. Which organ supports an implanted developing pregnancy, and which cells can combine in fertilization? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)
