Grade 7 — Weekly review — Module 7 Week 3

Date: 2027-05-14

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Probability and experiments

1. A bag has 2 red and 12 blue counters. Find P(red). (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

ELA — Long-passage source integration

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Physical Sciences — Human impacts & systems reasoning

1. Why trace pathways when evaluating human impacts? (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Social Studies — Crusades & exchange

W3 background: Religious, political, military, and economic motives/interests interacted. Participants and affected communities had different experiences and purposes. This is an assessment background note

written for this packet, not an actual historical primary-source quotation.

1. Compare two perspectives on medieval conflict/exchange. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Art — Digital art and layers

Read before you begin

Digital images can be built in parts. Layers separate elements for easier editing and arrangement. Credit reused assets and keep private information out of images.

1. Why use layers? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Life Sciences — Sikhism and service

Read before you begin

Sikhism began in Punjab with Guru Nanak and subsequent Gurus. The Guru Granth Sahib is central to Sikh religious life. Equality and service are important themes; individual practices vary.

1. Can similar actions have different meanings? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Computer Science — Networks and the internet

Read before you begin

A network connects devices exchanging information. The internet is a network of networks; the web is one service using it. Information passes through several systems.

1. Are the internet and web identical? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Life Skills — Mechanics and simple machines

Read before you begin

Mechanisms transmit or change motion and force. Levers, wheels, and pulleys have parts and constraints. Practice with safe models rather than hazardous equipment.

1. What is a fulcrum? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)
