Grade 7 — Module assessment — Module 8 Week 4 — TEACHER KEY

Date: 2027-06-18

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Scale-drawing applications and review

1. At scale 1 cm : 6 m, what actual length is 5 cm? (1 points)

Expected answer / rubric: 30 m

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

ELA — Reference tools and precise word choice

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

Expected answer / rubric: Relevant response and an accurate example of the day’s skill.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Physical Sciences — Communicate scientific explanation

1. What should a scientific explanation include? (1 points)

Expected answer / rubric: Claim, relevant evidence, reasoning, and limits.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Social Studies — Printing, ideas & changing worldviews

W4 background: More copies can reach more readers and settings. No; critical evaluation and evidence remain necessary. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Model how a printed idea changes or meets opposition. (3 points)

Expected answer / rubric: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Creator/message, network, audiences/responses, evidence, and qualification.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Art — Exhibitions and curation

Read before you begin

Curation selects and arranges works to communicate ideas. Labels explain context and attribution. Selection itself creates an interpretation.

1. What does a curator do? (2 points)

Expected answer / rubric: Select, organize, and contextualize works for an audience.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Sciences — Change in communities

Read before you begin

Communities change through migration, invention, conflict, cooperation, and environmental conditions. A timeline shows sequence, but sequence alone does not establish cause. Consider multiple explanations.

1. Does happening first prove causation? (2 points)

Expected answer / rubric: No; sequence alone is insufficient evidence.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Computer Science — Project testing

Read before you begin

A finished project should meet stated requirements and handle ordinary and unusual inputs. Record failures honestly and retest fixes. One success does not establish universal correctness.

1. Does one successful run prove universal correctness? (2 points)

Expected answer / rubric: No; different inputs or situations may reveal problems.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Skills — Repair, reuse, and evaluation

Read before you begin

Repair and reuse can conserve materials when an item remains safe and fit for use. A cosmetic patch is not necessarily a structural repair. Evaluate the function as well as appearance.

1. Does looking repaired guarantee safety? (2 points)

Expected answer / rubric: No; function and structural safety need checking.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.
