Grade 7 — Weekly review — Module 8 Week 2

Date: 2027-06-04

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Scale drawings and proportional lengths

1. At scale 1 cm : 6 m, what actual length is 5 cm? (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

ELA — Edit conventions in context

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Physical Sciences — Analyze multi- variable data

1. What is a confounding variable? (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Social Studies — Reformation

W2 background: Religious reform movements and challenges to church practices/authority, with political/social consequences. Texts could be reproduced and shared more quickly. This is an assessment

background note written for this packet, not an actual historical primary-source quotation.

1. Explain a reform argument’s circulation. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Art — Craft and function

Read before you begin

Craft combines function and appearance. Materials and use constrain designs. Decoration alone does not guarantee that something is strong or useful.

1. Why evaluate function? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Life Sciences — Social influence

Read before you begin

People are influenced by peers, families, institutions, and media. Influence does not remove responsibility and does not affect everyone identically. A causal claim needs more than a single example.

1. Does influence always determine an action? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Computer Science — CSS and layout

Read before you begin

CSS describes presentation, including spacing and color. Consistency helps navigation. Check whether a design remains readable at different sizes.

1. How does CSS differ from HTML? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Life Skills — Area, perimeter, and planning

Read before you begin

Perimeter measures a boundary; area measures surface coverage. Plans can estimate materials, but allowances and product dimensions matter. Check before buying or cutting.

1. How do area and perimeter differ? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)
