Grade 7 — Weekly review — Module 9 Week 2

Date: 2027-07-02

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Composite area

1. An L-shape consists of non-overlapping rectangles 4 by 6 cm and 2 by 3 cm. Area? (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

ELA — Transitions and organization

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Physical Sciences — Investigation/model/data collection

1. Why record methods while collecting data? (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Social Studies — Enlightenment ideas

W2 background: Reason, rights, consent, limits on government, or debates about equality. Rights/equality claims often coexisted with exclusion and slavery. This is an assessment background note written for this

packet, not an actual historical primary-source quotation.

1. Analyze an Enlightenment ideal and contradiction. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Art — Create and document

Read before you begin

Process records reveal choices and experiments that finished work may hide. Record unsuccessful changes honestly as well as successful ones.

1. Why document making? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Life Sciences — Comparing explanations

Read before you begin

Different explanations may fit one observation. Compare their evidence, assumptions, and limits. Confidence or elaborate detail does not automatically establish reliability.

1. How can competing explanations be compared? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Computer Science — Project plans and versions

Read before you begin

Plans specify requirements, steps, and completion checks. Versioned copies support recovery and comparison. Small tested changes are easier to understand than many untested changes.

1. Why save versions? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Life Skills — Planning steps and supplies

Read before you begin

Project plans include requirements, materials, time, sequence, and completion checks. Dependencies mean some steps need others first. Include alternatives when supplies change.

1. What is a dependency? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)
