Grade 7 | Life Sciences

Student reading and activity booklet

36 introductory chapters aligned to the school year. Week 1 is an optional introduction; the updated schedule begins in Week 2 on October 19, 2026. Every numbered chapter occupies one PDF page, so Chapter N starts on PDF page N + 1.

Use Monday/Wednesday for Art and Life Sciences; Tuesday/Thursday for Computer Science and Life Skills. Read and model in the first session; apply, revise, and demonstrate in the second. Adapt the pace to the child. This is an original introductory booklet and practical workbook, not a claim of a complete specialist textbook.

Grade 4: explain with concrete examples, labeled drawings, and a short paragraph. Grade 7: explain using precise vocabulary, two reasons or pieces of evidence, a counterexample or limitation, and a developed paragraph.

Use fictional situations and public information. Do not require disclosure of personal beliefs, health, sexual experience, addresses, passwords, or family finances. Adults supervise tools, heat, cleaning products, health discussions, and first-aid practice. Religion is studied descriptively, without devotional participation or grading belief.

Chapter 1 | Observing people fairly

Module 1 | Week 1 | PDF page 2

Read and discuss

Psychology studies behavior and mental processes. Observation describes an action; interpretation proposes an explanation. One action rarely proves what someone feels or believes.

First session: guided practice

Describe three actions in a fictional classroom scene, then propose two explanations for one action.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Why separate observation from interpretation?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 2 | Attention and distractions

Module 1 | Week 2 | PDF page 3

Read and discuss

Attention selects some information for processing. Distractions compete for attention. A fair comparison keeps tasks similar and changes one feature; one trial cannot establish a rule about everyone.

First session: guided practice

Compare recall of similar short lists with and without a harmless distraction; repeat and identify limits.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

What should stay similar in a fair comparison?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 3 | Memory and retrieval

Module 1 | Week 3 | PDF page 4

Read and discuss

Memory involves encoding, storing, and retrieving information. Grouping material and recalling it without looking can support learning. Forgetting does not establish that someone is incapable.

First session: guided practice

Recall five familiar objects; repeat using meaningful groups and compare strategies.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

How can grouping help recall?

My answer: _____
_____
_____

Activity record: sketch, steps, measurements, or observations

_____
_____
_____

One revision and why it helps: _____
_____

Chapter 4 | Emotions and behavior

Module 1 | Week 4 | PDF page 5

Read and discuss

Emotions provide information about experiences but do not establish facts about other people. Naming a feeling and pausing can help a person choose a response. People may experience the same event differently.

First session: guided practice

Give two possible emotional responses to a fictional event and role-play asking for clarification.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Can people feel differently about the same event?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 5 | Growth across a lifetime

Module 2 | Week 1 | PDF page 6

Read and discuss

Development includes physical, cognitive, emotional, and social changes. People develop at different rates. Stages describe broad patterns rather than rigid rules for every individual.

First session: guided practice

Create a fictional life-stage timeline and identify support that helps learning at each stage.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Why are development stages not rigid predictions?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 6 | Practice and feedback

Module 2 | Week 2 | PDF page 7

Read and discuss

Learning a skill usually takes attempts, useful feedback, and revision. Feedback is most helpful when it identifies a specific change rather than labeling a person as good or bad.

First session: guided practice

Practice a paper-folding skill, exchange specific feedback, and revise the product.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Give an example of useful feedback.

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 7 | Perspective and empathy

Module 2 | Week 3 | PDF page 8

Read and discuss

Perspective is a person's interpretation of a situation. Empathy involves trying to understand another person's experience without assuming that we know exactly how they feel.

First session: guided practice

Retell a fictional disagreement from two viewpoints and write a respectful question each character could ask.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Does understanding require agreement?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 8 | Support and help-seeking

Module 2 | Week 4 | PDF page 9

Read and discuss

People use relationships and routines to handle challenges. Asking a trusted adult for help is a practical skill. Private experiences need not be shared to demonstrate learning.

First session: guided practice

Map fictional sources of support and practice a clear help request for a made-up problem.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

What makes a help request useful?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 9 | Groups and social roles

Module 3 | Week 1 | PDF page 10

Read and discuss

Sociology studies social relationships, groups, and institutions. A role involves expected actions in a setting. One person may be a learner, sibling, friend, and teammate.

First session: guided practice

List roles in a fictional community and compare expectations in two settings.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Can someone have several roles?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 10 | Norms and customs

Module 3 | Week 2 | PDF page 11

Read and discuss

Norms are shared expectations; customs are repeated community practices. Both vary and change. Describing a difference does not establish that one community is better than another.

First session: guided practice

Compare two fictional greeting customs and write a respectful question about an unfamiliar practice.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Are customs universal?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 11 | Institutions and cooperation

Module 3 | Week 3 | PDF page 12

Read and discuss

Institutions organize recurring social needs, such as education, government, and health care. Rules and shared responsibilities support cooperation, but institutions can also be questioned and improved.

First session: guided practice

Map links among a library, school, and local services; suggest a justified improvement.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

What is an institution?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 12 | Stereotypes and samples

Module 3 | Week 4 | PDF page 13

Read and discuss

A stereotype applies an oversimplified idea to a whole group. A small or biased sample may misrepresent a population. Group membership does not determine an individual's character.

First session: guided practice

Rewrite an invented generalization as a narrower evidence-based statement.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Why can one person not establish what a whole group is like?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 13 | Philosophical questions and reasons

Module 4 | Week 1 | PDF page 14

Read and discuss

Philosophy examines questions about knowledge, reality, meaning, and how to live. A claim states a position; a reason supports it. Asking for reasons differs from attacking a person.

First session: guided practice

Sort factual, preference, and philosophical questions; discuss one using a claim and reason.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

How do a claim and a reason differ?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 14 | Evidence and uncertainty

Module 4 | Week 2 | PDF page 15

Read and discuss

Evidence supports claims with varying strength. A reasonable conclusion may need revision when better evidence appears. Saying that something is uncertain can be more accurate than claiming certainty.

First session: guided practice

Rank evidence for an invented everyday claim and identify what additional observation would help.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Why might a reasonable conclusion change?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 15 | Arguments and counterexamples

Module 4 | Week 3 | PDF page 16

Read and discuss

An argument connects reasons to a conclusion. A counterexample challenges a broad claim with a case it cannot explain. Respectful disagreement can improve reasoning.

First session: guided practice

Test the claim that all useful tools need electricity, then revise it.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

What is a counterexample?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 16 | Bias and fair comparison

Module 4 | Week 4 | PDF page 17

Read and discuss

Bias can affect what people notice, remember, and believe. Comparing sources and considering alternative explanations can reduce errors. Everyone can be affected by bias.

First session: guided practice

Compare fictional accounts of one event, list missing information, and ask a fairer question.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Does identifying bias prove that a claim is false?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 17 | Fairness and equality

Module 5 | Week 1 | PDF page 18

Read and discuss

Ethics considers how people ought to act. Equal shares and fair treatment are related but not identical; relevant needs and responsibilities can matter. Ethical questions may involve competing considerations.

First session: guided practice

Distribute fictional classroom supplies under two fairness rules and explain the tradeoffs.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Can equal treatment and fair treatment differ?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 18 | Consequences and duties

Module 5 | Week 2 | PDF page 19

Read and discuss

Some ethical approaches emphasize outcomes; others emphasize duties or rights. Careful decisions consider who is affected and which commitments matter. Good intentions do not guarantee good outcomes.

First session: guided practice

Compare two actions in a fictional lost-property scenario, identifying an outcome and duty for each.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

What is a consequence?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 19 | Consent and everyday respect

Module 5 | Week 3 | PDF page 20

Read and discuss

Respect includes listening to boundaries. Permission for one action is not permission for every action, and permission can be withdrawn. Borrowing objects provides an ordinary example.

First session: guided practice

Role-play asking before borrowing and responding when permission is withdrawn.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Can permission be withdrawn?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 20 | Ethical dialogue

Module 5 | Week 4 | PDF page 21

Read and discuss

Thoughtful discussion allows questions, reasons, and respectful disagreement. Students need not disclose private beliefs. Represent another person's position fairly before responding.

First session: guided practice

Discuss a shared-space rule and summarize a reasonable opposing position before evaluating it.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Why summarize another view fairly?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 21 | Studying religions and worldviews

Module 6 | Week 1 | PDF page 22

Read and discuss

Religious studies describes beliefs, practices, histories, and communities without asking learners to adopt them. Traditions are internally diverse and change over time. Nonreligious perspectives also merit respectful study.

First session: guided practice

Create neutral comparison questions about history, texts, practices, and meaning.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

How does studying a religion differ from practicing it?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 22 | Judaism

Module 6 | Week 2 | PDF page 23

Read and discuss

Judaism originated in the ancient Near East and includes diverse religious and cultural communities. Torah, interpretation, ethical living, and communal practices are important in many traditions. Observance and identity vary.

First session: guided practice

Locate the historical region and describe a text or practice using a reliable source, acknowledging variation.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Do all Jewish people observe identically?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 23 | Christianity

Module 6 | Week 3 | PDF page 24

Read and discuss

Christianity developed from the life and teachings of Jesus in the first-century eastern Mediterranean. Christians use the Bible and belong to diverse churches and traditions with different interpretations and practices.

First session: guided practice

Place the tradition on a timeline and compare two neutral descriptions of a practice.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Is Christianity a uniform set of practices?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 24 | Islam

Module 6 | Week 4 | PDF page 25

Read and discuss

Islam emerged in seventh-century Arabia. Muslims regard the Quran as sacred, and many organize religious life around practices called the Five Pillars. Muslim communities and interpretations are diverse.

First session: guided practice

Locate Arabia and distinguish a historical statement from a statement of religious belief.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Why distinguish historical description and faith claims?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 25 | Hindu traditions

Module 7 | Week 1 | PDF page 26

Read and discuss

Hindu traditions developed over a long history in South Asia and include many texts, philosophies, and practices. Dharma and karma are important in many traditions, but there is no single uniform Hindu practice.

First session: guided practice

Locate South Asia and revise an overgeneralization to acknowledge diversity.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Why avoid saying all Hindus practice identically?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 26 | Buddhist traditions

Module 7 | Week 2 | PDF page 27

Read and discuss

Buddhist traditions trace their beginnings to Siddhartha Gautama in ancient South Asia. Many teachings examine suffering, ethical conduct, and mental training. Communities differ in texts, institutions, and practices.

First session: guided practice

Distinguish a historical question from a philosophical question about Buddhism.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Are Buddhist communities identical everywhere?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 27 | Sikhism and service

Module 7 | Week 3 | PDF page 28

Read and discuss

Sikhism began in Punjab with Guru Nanak and subsequent Gurus. The Guru Granth Sahib is central to Sikh religious life. Equality and service are important themes; individual practices vary.

First session: guided practice

Locate Punjab and compare service as a religious practice with a nonreligious civic activity.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Can similar actions have different meanings?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 28 | Indigenous and nonreligious worldviews

Module 7 | Week 4 | PDF page 29

Read and discuss

Indigenous traditions belong to distinct peoples and histories; there is no single Indigenous religion. Nonreligious views can include humanism, atheism, and agnosticism, which also differ. Avoid treating any group as uniform.

First session: guided practice

Use a named reliable source for a particular community and compare approaches to an ethical question.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Why avoid speaking of one Indigenous religion?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 29 | Media and representation

Module 8 | Week 1 | PDF page 30

Read and discuss

Representations select what to show and omit. A photograph, story, or graph may be accurate yet incomplete. Context and purpose affect interpretation.

First session: guided practice

Compare two representations of a community and identify what each cannot establish.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Can an accurate image still be incomplete?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 30 | Social influence

Module 8 | Week 2 | PDF page 31

Read and discuss

People are influenced by peers, families, institutions, and media. Influence does not remove responsibility and does not affect everyone identically. A causal claim needs more than a single example.

First session: guided practice

Identify influences in a fictional purchase and propose an evidence-based decision process.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Does influence always determine an action?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 31 | Conflict and communication

Module 8 | Week 3 | PDF page 32

Read and discuss

Conflict may involve different interests, information, or values. Specific descriptions and listening help more than insults. Serious harm or coercion requires adult support rather than forced compromise.

First session: guided practice

Role-play an ordinary task disagreement and identify when adult help is needed.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Must someone compromise about unsafe treatment?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 32 | Change in communities

Module 8 | Week 4 | PDF page 33

Read and discuss

Communities change through migration, invention, conflict, cooperation, and environmental conditions. A timeline shows sequence, but sequence alone does not establish cause. Consider multiple explanations.

First session: guided practice

Create a fictional change timeline and separate sequence from evidence of causation.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Does happening first prove causation?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 33 | Research questions

Module 9 | Week 1 | PDF page 34

Read and discuss

A useful research question has a clear scope and can be investigated with accessible evidence. Private beliefs and experiences need not be collected. Use fictional or public information.

First session: guided practice

Turn a broad community question into a focused research question and choose two sources.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

What makes a question investigable?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 34 | Comparing explanations

Module 9 | Week 2 | PDF page 35

Read and discuss

Different explanations may fit one observation. Compare their evidence, assumptions, and limits. Confidence or elaborate detail does not automatically establish reliability.

First session: guided practice

Develop two explanations for an invented trend and identify evidence that could distinguish them.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

How can competing explanations be compared?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 35 | Reasoned reflection

Module 9 | Week 3 | PDF page 36

Read and discuss

Reflection explains how evidence and reasons shape conclusions. Students can evaluate reasoning without announcing religious identities or changing beliefs. Honest reflection can include uncertainty.

First session: guided practice

Write about a fictional character's changed conclusion and identify the evidence behind the revision.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

Must reflection claim certainty?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____

Chapter 36 | Portfolio and dialogue

Module 9 | Week 4 | PDF page 37

Read and discuss

A portfolio shows growth through work, revisions, and explanations. It evaluates reasoning rather than a person's worth or belief system. Present a claim, evidence, counterpoint, and next question.

First session: guided practice

Select two pieces showing improvement and present a respectful explanation of your reasoning.

Second session: apply and revise

Extend the activity with a comparison, two supporting reasons or observations, and a limitation; explain your conclusion in a developed paragraph. Review the first attempt with your parent and improve one specific feature.

Check your understanding

What should a critical-thinking portfolio demonstrate?

My answer: _____

_____

_____

Activity record: sketch, steps, measurements, or observations

_____

_____

_____

One revision and why it helps: _____

_____
