# Grade 4 · Module 3 Week 3 Friday gap quiz - TEACHER ANSWER KEY

Scheduled: 2027-01-15 | Required writing, hands-on/science, social studies, and Spanish gap work. Complete the separately listed Khan assessments for primary-course coverage.

Math: 4.NBT.6; 4.OA.4-5 | ELA: RL.4.1-10; RI.4.1-10; W.4.1-9; L.4.1-6; SL.4.1-6 (grade-level coverage; module skill targets below) | Science: P.4.6A-B | Social Studies: MS CCRS SS Grade 4 - Mississippi Studies & Regions | Spanish: MS World Languages Framework 2016 - Novice communication

Award points by item. Accept equivalent correct mathematical forms and supported written interpretations. For open responses, use the stated rubric; do not require identical wording. Score each subject separately, then apply your grading policy.

## Writing and conventions · required gap check - 8 points

Score: _____ / 8

The Sparrow and the Lantern

This is an original fable. A sparrow bragged that she could light the whole forest with one lantern. An owl asked her to test the lantern before promising too much. The sparrow refused. At dusk she lifted the lantern, but its light reached only the nearest branch. Embarrassed, she almost flew away. Then she invited the fireflies to help. Together they marked a safe path to the clearing. The sparrow thanked each helper and promised to listen before boasting again. The owl did not laugh at her mistake; he praised the useful path.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

Answer / scoring: 5-point rubric: accurate central message (1), two relevant text details (2), logical explanation/organization (1), clear sentences/conventions (1). Accept supported interpretations.

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

Answer / scoring: 3-point rubric: two effective revisions (2); accurate explanation of one improvement (1).

# Science - 10 points

Score: _____ / 10

W3 data: A fictional comparison records temperature before and after a controlled warming step. Trial A: 23 temperature in degrees C; Trial B: 31 temperature in degrees C. These are invented assessment data, not a claim about a real investigation.

1. What is reflection? (1 point)

Answer / scoring: Light bouncing from a surface.

2. What is refraction? (1 point)

Answer / scoring: A change in light's direction as it passes between materials where its speed differs.

3. Use W3 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 temperature in degrees C.

4. Use W3 data. State one observation without claiming its cause. (1 point)

Answer / scoring: Trial B recorded 31 versus 23 in A; accept an accurate description without an unsupported causal claim.

5. Use W3 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

Answer / scoring: No. Need a clear tested variable, controls, repeated trials, and consideration of other causes. One point for no; one for a relevant reason.

6. Draw reflection and refraction as different paths. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Reflection returns from surface; refraction crosses a boundary and changes direction.
