# Grade 7 · Module 3 Week 1 Friday gap quiz

Scheduled: 2026-12-18 | Required writing, hands-on/science, social studies, and Spanish gap work. Complete the separately listed Khan assessments for primary-course coverage.

Student: _____ Date completed: _____

Math: 7.NS.1 | ELA: RL.7.1-10; RI.7.1-10; W.7.1-9; L.7.1-6; SL.7.1-6 (grade-level coverage; module skill targets below) | Science: P.7.5A-B | Social Studies: 7.4 Ancient Greece | Spanish: MS World Languages Framework 2016 - Novice communication

Student paper contains no answers. Complete all sections. Show math work. Use only the supplied passages/background notes and teacher-approved tools. Spanish cue support is allowed. A module test may be divided into 2-3 sittings.

## Writing and conventions · required gap check - 8 points

Score: _____ / 8

Arachne: an Original Retelling

This original retelling draws on the traditional myth. Arachne was a talented weaver who took great pride in her work. When people praised her skill, she insisted that no teacher or goddess deserved any credit. Athena, associated with wisdom and crafts, approached in disguise and advised her to speak with humility. Arachne dismissed the advice and demanded a contest. The two wove remarkable pictures, but their conflict involved more than technical skill: Arachne's attitude challenged the goddess's authority. In the traditional ending, Athena transformed Arachne into a spider, forever connected with weaving. Readers can admire Arachne's ability while questioning her boastfulness and the severity of the punishment. The story invites discussion of pride, power, artistic skill, and the consequences of refusing advice. A theme is a reasoned interpretation, not simply the name of a topic.

1. Using the supplied passage, write two organized paragraphs explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

# Science - 10 points

Score: _____ / 10

W1 data: A fictional comparison records temperature before and after a controlled warming step. Trial A: 21 temperature in degrees C; Trial B: 29 temperature in degrees C. These are invented assessment data, not a claim about a real investigation.

1. What distinguishes a solid from a liquid in a simple particle model? (1 point)

2. Is melting usually a physical or chemical change? (1 point)

3. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

4. Use W1 data. State one observation without claiming its cause. (1 point)

5. Use W1 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

6. Draw particle models for solid, liquid, and gas. (3 points)
