Grade 7 · Module 7 Week 3 Friday gap quiz

Scheduled: 2027-05-14 | Required writing, hands-on/science, social studies, and Spanish gap work. Complete the separately listed Khan assessments for primary-course coverage.

Student: _____ Date completed: _____

Math: 7.SP.1-8 | ELA: RL.7.1-10; RI.7.1-10; W.7.1-9; L.7.1-6; SL.7.1-6 (grade-level coverage; module skill targets below) | Science: E.7.9 + integrated practices | Social Studies: MS CCRS SS Grade 7 - Medieval Europe | Spanish: MS World Languages Framework 2016 - Novice communication

Student paper contains no answers. Complete all sections. Show math work. Use only the supplied passages/background notes and teacher-approved tools. Spanish cue support is allowed. A module test may be divided into 2-3 sittings.

Writing and conventions · required gap check - 8 points

Score: _____ / 8

After the Storm

Original poem:
The street unrolls its silver thread,
The restless clouds move overhead.
A window holds the fading light;
A branch writes slowly into night.
I count the drops that leave the leaves,
And hear the roof repeat its eaves.
The storm has gone; its quiet trace
Still draws a map across this place.

Prose companion: Rainwater remains on leaves and the street after a storm. Clouds move away as evening approaches. A person observes these remaining signs of the weather. The prose summarizes observable conditions; the poem uses images to create a reflective mood.

1. Using the supplied passage, write two organized paragraphs explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

Science - 10 points

Score: _____ / 10

W3 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 13 milliliters of water collected; Trial B: 21 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

1. Why trace pathways when evaluating human impacts? (1 point)

2. Why compare alternative explanations for a change? (1 point)

3. Use W3 data. Which trial has the higher recorded value, and by how much? (2 points)

4. Use W3 data. State one observation without claiming its cause. (1 point)

5. Use W3 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

6. Model one human impact and an alternative explanation. (3 points)
