VENVLEARNING

Grade 4
Art

TEACHER EDITION

Unit 1 The Elements of Art
Unit 2 Art Around the World

A VenvLearning family homeschool curriculum

How to use this Teacher Edition

This book holds everything needed to teach the course: unit overviews, a plan for every lesson with what to say and do, the student lesson with Try It answers, and answer keys for every workbook page, weekly check and unit test.

- Daily routine (about 45–55 minutes): Look and Talk 5 · Learn and Demonstrate 10 · Create 25 · Reflect 5.
- Say: lines are a suggested script. Use your own words.
- Two lessons a week, then the Sketchbook Check (about 15 minutes), then corrections or a project.
- Each plan's Pacing row and each unit's pacing guide give the week and lesson order. Set the days to fit your own calendar.

Contents

The Elements of Art 4

Lesson 1.1: Looking Like an Artist 6

Lesson 1.2: Line 10

Sketchbook Check 1: Looking and Line — Answer Key 13

Lesson 1.3: Shape and Form 14

Lesson 1.4: Proportion 18

Sketchbook Check 2: Shape, Form, and Proportion — Answer Key 21

Lesson 1.5: Color 22

Lesson 1.6: Value and Contrast 26

Sketchbook Check 3: Color and Value — Answer Key 29

Lesson 1.7: Composition 30

Lesson 1.8: Revision and Kind, Specific Feedback 33

Unit 1 Review — Answer Key 37

Unit 1 Portfolio Review — Answer Key 38

Art Around the World 39

Lesson 2.1: Art of Africa: Masks and Leaders 42

Lesson 2.2: Kente Cloth and Adinkra Symbols 46

Sketchbook Check 1: Art of Africa — Answer Key 50
Lesson 2.3: Chinese Calligraphy 51
Lesson 2.4: Chinese Landscape Painting 55
Sketchbook Check 2: Art of China — Answer Key 58
Lesson 2.5: Chinese Porcelain: Blue and White 59
Lesson 2.6: Early American Portraits 63
Sketchbook Check 3: Porcelain and Portraits — Answer Key 67
Lesson 2.7: Early American Buildings 68
Lesson 2.8: Curating a Family Gallery 72
Unit 2 Review — Answer Key 76
Unit 2 Portfolio Review — Answer Key 77

UNIT 1 · TEACHER OVERVIEW

The Elements of Art

Looking like an artist, line, shape and form, proportion, color, value and contrast, composition, and revision.

Every artwork, from a cave painting to a cartoon, is built from the same ingredients: line, shape, form, color, value, texture, and space. In this unit you'll learn to look like an artist, then practice each element in your own work, plan a composition, and use feedback to make a finished piece for your portfolio.

Big ideas

- Observe and describe art using the elements of art.
- Use line, shape, form, and proportion in drawings.
- Mix colors, make value scales, and use contrast.
- Plan compositions and revise with feedback.

Standards

Code	Standard
NCAS VA:Cr1–3	Generate, develop, and refine artwork.
NCAS VA:Re7–9	Perceive, interpret, and evaluate art.

What students should already know

- Using pencils, crayons, and paint.

Materials for the unit

- Drawing paper and drawing pencils
- Red, yellow, blue, black, and white paint; brushes; palettes
- Colored pencils and markers
- Mirror

- Portfolio folder

Pacing guide

Teach the lessons in order, then give the week's check. Set the days to fit your own calendar.

Week	Order	Lesson	Title
Week 1	Lesson 1 of 2	1.1	Looking Like an Artist
Week 1	Lesson 2 of 2	1.2	Line
Week 1	End of week	Check	Sketchbook Check 1: Looking and Line
Week 2	Lesson 1 of 2	1.3	Shape and Form
Week 2	Lesson 2 of 2	1.4	Proportion
Week 2	End of week	Check	Sketchbook Check 2: Shape, Form, and Proportion
Week 3	Lesson 1 of 2	1.5	Color
Week 3	Lesson 2 of 2	1.6	Value and Contrast
Week 3	End of week	Check	Sketchbook Check 3: Color and Value
Week 4	Lesson 1 of 2	1.7	Composition
Week 4	Lesson 2 of 2	1.8	Revision and Kind, Specific Feedback
Week 4	Before the test	Review	Unit 1 Review
Week 4	End of unit	Test	Unit 1 Portfolio Review

TEACHING THIS UNIT AT HOME

Visit the Walter Anderson Museum of Art in Ocean Springs, or look at his work online, and play See, Think, Wonder together.

UNIT VOCABULARY

elements of art	Line, shape, form, color, value, texture, space.
proportion	Size relationships.
primary colors	Red, yellow, blue.
contrast	A big difference that stands out.
composition	How parts are arranged.
revise	Change and improve.

LESSON 1.1 · TEACHER PLAN
Week 1 · Lesson 1 of 2

Unit 1: The Elements of Art

Lesson 1.1: Looking Like an Artist

Student goal	I can look closely at artwork and describe what I see using the elements of art.
Objective	Students observe closely and describe art using the elements.
Standard	NCAS VA:Re7, VA:Re8 — Perceive and analyze artistic work; interpret intent and meaning.
Pacing	Unit 1, week 1, lesson 1 of 2
Time	About 45 minutes
Materials	Drawing paper, pencils, natural objects, workbook Lesson 1.1
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	One-minute silent looking.
Learn and Demonstrate	10	Introduce the seven elements. Model See, Think, Wonder with any artwork.
Create	25	Nature Observation Sketch.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Drawing from memory instead of observation.

SUPPORT

- Use a viewfinder (a paper frame) to focus on one part.

EXTEND

- Draw the same object from three angles.

STUDENT LESSON 1.1 · WITH ANSWERS

Lesson 1.1: Looking Like an Artist

STUDENT'S ASSIGNMENT

- [ ] Do the Warm-Up in Workbook Lesson 1.1, Part A.
- [ ] Read Lesson 1.1 in this book with your teacher.
- [ ] Do the Create activity, Nature Observation Sketch, on your Studio Sheet (Workbook Lesson 1.1, Part B).
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.1, Part C.
- [ ] Finish Workbook Lesson 1.1: Parts D–E.

LOOK AND WONDER

Look at any picture on your wall for one whole minute without talking. What did you notice in the last 30 seconds that you missed at first?

Artists are expert lookers. Before they make art, they spend a lot of time observing: noticing shapes, colors, and tiny details most people walk past. When we talk about art, we use the elements of art, the building blocks every artist uses.

Element	What it is
line	a mark that moves from one point to another
shape	a flat area with edges (2-D)
form	a shape with depth, like a ball or box (3-D)
color	what we see when light reflects off something: red, blue, yellow, and more
value	how light or dark something is
texture	how something feels, or looks like it would feel
space	the area around, between, and inside things

Walter Anderson (1903–1965) was an artist from Ocean Springs, Mississippi. He rowed a small boat out to Horn Island in the Gulf of Mexico and spent days drawing and painting the birds, crabs, plants, and waves he found there. He looked so closely that his watercolors seem to move. He's a great example of an artist who learned by observing.

STEP BY STEP · SEE, THINK, WONDER

Use these three steps to look at any artwork.

1 See: What do you see? Name only what is really there (colors, lines, objects).

2 Think: What do you think is going on? Why?

3 Wonder: What questions do you have?

Look for: Slow, careful looking first; ideas and questions second.

CREATE · NATURE OBSERVATION SKETCH

How much can you notice in 10 minutes?

You need: pencil; drawing paper; a leaf, flower, shell, or pinecone.

1 Set your object in front of you.

2 Look for one full minute before you draw.

3 Draw it slowly, looking at the object more than at your paper.

4 Add three labels for details you noticed (veins, spots, edges).

Record: your sketch with three labeled details.

★ KEY IDEA

Artists look closely first. The elements of art (line, shape, form, color, value, texture, space) give us words for what we see.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. Name three elements of art.

Answer: any three of line, shape, form, color, value, texture, space

2. Where did Walter Anderson go to draw nature?

Answer: Horn Island, in the Gulf of Mexico

3. What are the three steps of See, Think, Wonder?

Answer: see what's there, think about what's going on, wonder (ask questions)

Workbook Answer Key · Lesson 1.1

#	Question	Answer
1	To look closely and carefully	observe
2	How light or dark something is	value

#	Question	Answer
3	Draw your nature object from observation. Label three details.	Look for careful observation and three labeled details.
4	Name three elements of art.	any three of line, shape, form, color, value, texture, space
5	Where did Walter Anderson go to draw nature?	Horn Island, in the Gulf of Mexico
6	What are the three steps of See, Think, Wonder?	see what's there, think about what's going on, wonder (ask questions)
7	Choose an artwork (a book illustration, a museum website, or art in your home). Write one See, one Think, and one Wonder.	Answers vary.
8	Which element of art did you notice most in your object? Why?	Answers vary.

LESSON 1.2 · TEACHER PLAN
Week 1 · Lesson 2 of 2

Unit 1: The Elements of Art

Lesson 1.2: Line

Student goal	I can create different kinds of lines and use them to show movement and feeling.
Objective	Students create and use expressive lines.
Standard	NCAS VA:Cr1, VA:Cr2 — Generate and develop artistic ideas.
Pacing	Unit 1, week 1, lesson 2 of 2
Time	About 45 minutes
Materials	Pencils, markers, paper, workbook Lesson 1.2
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Calm line vs excited line.
Learn and Demonstrate	10	Demonstrate eight kinds of line. Discuss line direction and feeling; show The Starry Night.
Create	25	Line Sampler and Line Feelings.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Pressing too hard so lines can't vary.

SUPPORT

- Show thick vs thin by changing pressure.

EXTEND

- Make a line drawing of music as it plays.

STUDENT LESSON 1.2 · WITH ANSWERS

Lesson 1.2: Line

STUDENT'S ASSIGNMENT

- [ ] Do the Warm-Up in Workbook Lesson 1.2, Part A.
- [ ] Read Lesson 1.2 in this book with your teacher.
- [ ] Do the Create activity, Line Sampler and Line Feelings, on your Studio Sheet (Workbook Lesson 1.2, Part B).
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.2, Part C.
- [ ] Finish Workbook Lesson 1.2: Part D.

LOOK AND WONDER

Draw a line that looks calm. Now draw a line that looks excited. What's different?

Line is the first element most artists use. Lines can be straight, curved, zigzag, wavy, spiral, dotted, thick, or thin. Lines also carry feelings: flat horizontal lines feel calm and restful, tall vertical lines feel strong, and slanted diagonal lines feel full of movement.

straight curved zigzag wavy spiral dotted thick thin

In The Starry Night (1889), Vincent van Gogh used thick, swirling, curving lines to make the night sky look like it is moving. Find a picture of it online or in a library book and trace the swirls with your finger.

CREATE · LINE SAMPLER AND LINE FEELINGS

How can lines show feelings?

You need: pencil; black marker; paper.

1. Fold a paper into eight boxes.
2. Fill each box with a different kind of line (straight, curved, zigzag, wavy, spiral, dotted, thick, thin).
3. On a new paper, draw a simple landscape using only lines that feel calm.
4. Draw the same landscape again using only lines that feel stormy.

Record: both landscapes and a sentence about which lines you chose.

★ KEY IDEA

Lines can be many kinds, and their direction and shape carry feeling: horizontal = calm, vertical = strong, diagonal = movement.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What feeling do horizontal lines often show?

Answer: calm, rest

2. What kind of line shows the outside edge of a shape?

Answer: contour line

3. What kind of lines did van Gogh use in the sky?

Answer: swirling, curving lines

Workbook Answer Key · Lesson 1.2

#	Question	Answer
1	Lines that slant	diagonal
2	Lines that go straight up and down	vertical
3	Line sampler: fill each part of this space with a different kind of line. Label each one.	At least eight labeled line types.
4	Draw a tree using only zigzag and spiral lines.	Creative use of the two line types.
5	Draw the same simple landscape twice: calm lines on the left, stormy lines on the right.	Answers vary. Check that every part is filled in and matches what the student did.
6	Which lines did you choose for each landscape, and why?	Answers vary. Check that every part is filled in and matches what the student did.
7	What feeling do horizontal lines often show?	calm, rest
8	What kind of line shows the outside edge of a shape?	contour line
9	What kind of lines did van Gogh use in the sky?	swirling, curving lines
10	Which kind of line would you use to show a race car? Why?	Diagonal or zigzag lines, because they show speed and movement.

SKETCHBOOK CHECK · ANSWER KEY
After Lesson 1.2

About 15 minutes

Sketchbook Check 1: Looking and Line — Answer Key

Answers

#	Question	Answer
1	Name four elements of art.	any four of line, shape, form, color, value, texture, space
2	Feeling of horizontal lines	calm
3	Feeling of diagonal lines	movement
4	Draw three different kinds of lines and label them.	Three correctly labeled line types.

LESSON 1.3 · TEACHER PLAN
Week 2 · Lesson 1 of 2

Unit 1: The Elements of Art

Lesson 1.3: Shape and Form

Student goal	I can tell shapes from forms, sort shapes as geometric or organic, and use shading to make a shape look 3-D.
Objective	Students distinguish shape and form and shade forms.
Standard	NCAS VA:Cr2 — Organize and develop artistic ideas and work.
Pacing	Unit 1, week 2, lesson 1 of 2
Time	About 45 minutes
Materials	Pencils, paper, ball, lamp, workbook Lesson 1.3
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Circle vs ball.
Learn and Demonstrate	10	Demonstrate shading a sphere. Show Matisse cut-outs.
Create	25	From Shape to Form.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Shading all around the edge evenly (looks flat).

SUPPORT

- Mark the light source with an arrow first.

EXTEND

- Make a Matisse-style cut-paper collage.

STUDENT LESSON 1.3 · WITH ANSWERS

Lesson 1.3: Shape and Form

STUDENT'S ASSIGNMENT

- [ ] Do the Warm-Up in Workbook Lesson 1.3, Part A.
- [ ] Read Lesson 1.3 in this book with your teacher.
- [ ] Do the Create activity, From Shape to Form, on your Studio Sheet (Workbook Lesson 1.3, Part B).
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.3, Part C.
- [ ] Finish Workbook Lesson 1.3: Parts D–E.

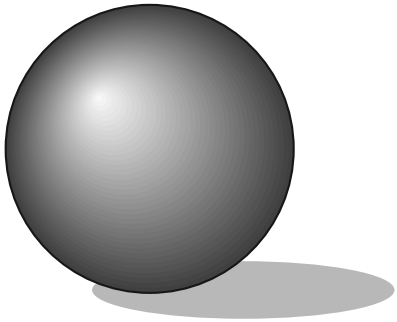

LOOK AND WONDER

Is a circle the same as a ball? How could you draw a circle so it looks like a ball?

Shapes are flat (two-dimensional). Geometric shapes have exact edges; organic shapes are free and irregular, like things in nature. Forms are three-dimensional: a circle becomes a sphere, a square becomes a cube, a triangle becomes a cone or pyramid.

Shape (2-D)	Form (3-D)
circle	sphere (ball)
square	cube (box)
rectangle	cylinder or rectangular prism
triangle	cone or pyramid

In his last years, Henri Matisse “drew with scissors,” cutting bold organic shapes from painted paper, as in The Snail (1953). Artists can also turn a flat shape into a form by shading: darker values on the side away from the light.

Shading turns a flat circle into a round form.

CREATE · FROM SHAPE TO FORM

How can shading make a shape look three-dimensional?

You need: pencil; paper; a ball or orange and a lamp or window light.

1 Draw a circle. Decide where the light is coming from.

2 Shade the side away from the light darker, blending smoothly.

3 Leave a small bright spot (highlight) near the light side.

4 Add a shadow on the ground under the ball.

Record: your shaded sphere and a flat circle side by side.

★ KEY IDEA

Shapes are flat; forms have depth. Shading on the side away from the light turns a shape into a form.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. Geometric or organic: a leaf

Answer: organic

2. What form does a circle become?

Answer: a sphere

3. Where does shading go?

Answer: on the side away from the light

Workbook Answer Key · Lesson 1.3

#	Question	Answer
1	Flat, with edges	shape
2	Has height, width, and depth	form
3	Draw a flat circle and a shaded sphere side by side. Show where the light comes from.	Answers vary. Check that every part is filled in and matches what the student did.
4	Draw and shade a sphere, a cube, and a cylinder. Show where the light comes from.	Shading consistent with one light source.
5	Geometric or organic: a leaf	organic
6	What form does a circle become?	a sphere
7	Where does shading go?	on the side away from the light
8	puddle	organic
9	stop sign	geometric
10	cloud	organic
11	window	geometric
12	Why did Matisse's cut-outs use mostly organic shapes, do you think?	Answers vary; e.g., they feel lively and natural, like plants and sea creatures.

LESSON 1.4 · TEACHER PLAN
Week 2 · Lesson 2 of 2

Unit 1: The Elements of Art

Lesson 1.4: Proportion

Student goal	I can use proportion to draw a face with parts in the right size and place.
Objective	Students use proportion guidelines to draw a face.
Standard	NCAS VA:Cr2, VA:Cr3 — Develop and refine artistic work.
Pacing	Unit 1, week 2, lesson 2 of 2
Time	About 45 minutes
Materials	Pencils, erasers, mirrors, workbook Lesson 1.4
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Where are your eyes?
Learn and Demonstrate	10	Demonstrate the face guide step by step.
Create	25	Proportional Self-Portrait.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Drawing eyes high on the head; drawing guidelines too dark.

SUPPORT

- Pre-drawn ovals with guidelines.

EXTEND

- Draw a family member using the same guide.

STUDENT LESSON 1.4 · WITH ANSWERS

Lesson 1.4: Proportion

STUDENT'S ASSIGNMENT

- [ ] Do the Warm-Up in Workbook Lesson 1.4, Part A.
- [ ] Read Lesson 1.4 in this book with your teacher.
- [ ] Do the Create activity, Proportional Self-Portrait, on your Studio Sheet (Workbook Lesson 1.4, Part B).
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.4, Part C.
- [ ] Finish Workbook Lesson 1.4: Part D.

LOOK AND WONDER

Where are your eyes on your head: near the top, or halfway down? Make a guess, then check in a mirror with a ruler.

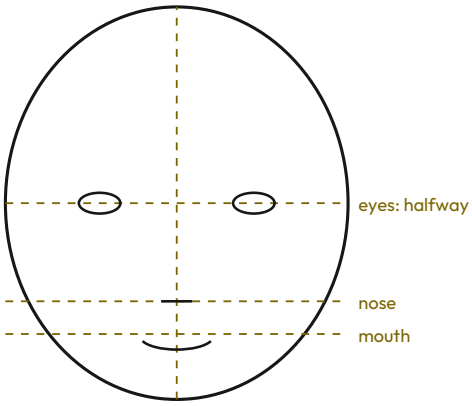

Proportion means the size relationships between parts. Most people draw eyes too high! On most faces, the eyes are about halfway between the top of the head and the chin. Artists use guidelines to place features.

Face guide: draw an oval. A line halfway down shows where the eyes go.

The bottom of the nose is about halfway between the eyes and the chin.

The mouth is about one-third of the way from the nose to the chin.

Eyes are about one eye-width apart.

Artists sometimes break proportion on purpose. Cartoonists draw big heads and huge eyes to look cute or funny. That's called exaggeration.

CREATE · PROPORTIONAL SELF-PORTRAIT

Can guidelines help you draw a face that looks right?

You need: pencil; eraser; mirror; paper.

1 Draw a large oval. Lightly draw the halfway line and a center line.
2 Place the eyes on the halfway line, one eye-width apart.
3 Add the nose and mouth using the guide.
4 Look in the mirror to add hair, ears (between the eye line and nose line), and details.
5 Erase the guidelines.

Record: your self-portrait.

★ KEY IDEA

Proportion is size relationships. Eyes sit about halfway down the head.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. Where are the eyes on most faces?

Answer: about halfway down the head

2. Where do the ears usually line up?

Answer: between the eye line and the bottom of the nose

3. What is exaggeration?

Answer: changing proportion on purpose for effect

Workbook Answer Key · Lesson 1.4

#	Question	Answer
1	A picture of a person	portrait
2	Size relationships between parts	proportion
3	Draw a face using the face guide steps.	Eyes at halfway line; nose and mouth placed with guides.
4	What did the guidelines help you get right?	Answers vary. Check that every part is filled in and matches what the student did.
5	Where are the eyes on most faces?	about halfway down the head
6	Where do the ears usually line up?	between the eye line and the bottom of the nose
7	What is exaggeration?	changing proportion on purpose for effect
8	What surprised you about where facial features go?	Answers vary; most notice eyes are lower than expected.

SKETCHBOOK CHECK · ANSWER KEY
After Lesson 1.4

About 15 minutes

Sketchbook Check 2: Shape, Form, and Proportion — Answer Key

Answers

#	Question	Answer
1	Geometric or organic: a flower	organic
2	A circle as a form is a...	sphere
3	Where are the eyes on most faces?	about halfway down the head
4	Draw and shade a sphere with a light source.	Shading opposite the light; highlight; cast shadow.

LESSON 1.5 · TEACHER PLAN
Week 3 · Lesson 1 of 2

Unit 1: The Elements of Art

Lesson 1.5: Color

Student goal	I can name primary, secondary, and tertiary colors and mix secondary colors.
Objective	Students identify and mix colors.
Standard	NCAS VA:Cr2 — Organize and develop artistic ideas and work.
Pacing	Unit 1, week 3, lesson 1 of 2
Time	About 45 minutes
Materials	Red/yellow/blue paint, brushes, water, palettes, workbook Lesson 1.5
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	How many colors from three?
Learn and Demonstrate	10	Demonstrate mixing green and orange.
Create	25	Paint a Color Wheel.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Muddy colors from dirty brushes.

SUPPORT

- Pre-labeled wheel template.

EXTEND

- Mix three different greens and compare them.

STUDENT LESSON 1.5 · WITH ANSWERS

Lesson 1.5: Color

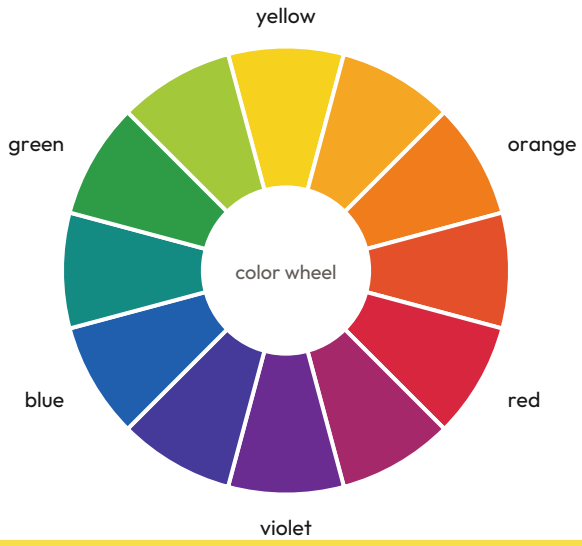

STUDENT'S ASSIGNMENT

- [ ] Do the Warm-Up in Workbook Lesson 1.5, Part A.
- [ ] Read Lesson 1.5 in this book with your teacher.
- [ ] Do the Create activity, Paint a Color Wheel, on your Studio Sheet (Workbook Lesson 1.5, Part B).
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.5, Part C.
- [ ] Finish Workbook Lesson 1.5: Parts D–E.

LOOK AND WONDER

If you only had red, yellow, and blue paint, how many colors could you make?

The painter's color wheel starts with three primary colors: red, yellow, and blue. Mix two primaries to get a secondary color: red + yellow = orange, yellow + blue = green, blue + red = violet. Mix a primary with a neighboring secondary to get a tertiary color, such as yellow-green or red-violet.

STEP BY STEP · MIX A SECONDARY COLOR

Make green.

1 Put a small puddle of yellow on your palette.

2 Add a tiny bit of blue and mix. (Blue is strong; add it a little at a time.)

3 Keep adding blue until you like the green.

Look for: Start with the lighter color and add the darker color slowly.

CREATE · PAINT A COLOR WHEEL

Can you make every color on the wheel from three primaries?

You need: red, yellow, and blue paint; brush; water cup; paper towel; paper plate palette; the workbook color wheel template.

1 Paint the three primary colors in their spaces.

2 Mix and paint the three secondary colors.

3 Mix and paint the six tertiary colors.

4 Clean your brush between colors.

Record: your finished 12-part color wheel.

★ KEY IDEA

Primary colors mix to make secondary colors; primary + neighboring secondary makes tertiary colors.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. Red + yellow = ?

Answer: orange

2. Name the three primary colors.

Answer: red, yellow, blue

3. Name a tertiary color.

Answer: e.g. yellow-green, blue-violet, red-orange

Workbook Answer Key · Lesson 1.5

#	Question	Answer
1	Yellow + blue =	green
2	Blue + red =	violet (purple)
3	Color wheel template: paint or color all 12 parts in order.	Correct order: yellow, yellow-orange, orange, red-orange, red, red-violet, violet, blue-violet, blue, blue-green, green, yellow-green.

#	Question	Answer
4	Which colors were hardest to mix? What did you do?	Answers vary. Check that every part is filled in and matches what the student did.
5	Red + yellow = ?	orange
6	Name the three primary colors.	red, yellow, blue
7	Name a tertiary color.	e.g. yellow-green, blue-violet, red-orange
8	Primary or secondary: orange	secondary
9	Primary or secondary: blue	primary
10	Yellow + green =	yellow-green (tertiary)
11	Which primary is not in green?	red
12	Why should you add dark colors to light colors a little at a time?	Dark colors are strong and can quickly overpower a light color.

LESSON 1.6 · TEACHER PLAN
Week 3 · Lesson 2 of 2

Unit 1: The Elements of Art

Lesson 1.6: Value and Contrast

Student goal	I can make tints and shades, create a value scale, and use contrast to make something stand out.
Objective	Students create value scales and use contrast.
Standard	NCAS VA:Cr2, VA:Re7 — Organize and develop artistic work; perceive artistic choices.
Pacing	Unit 1, week 3, lesson 2 of 2
Time	About 45 minutes
Materials	Paint or colored pencils, workbook Lesson 1.6
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Stop signs and buses.
Learn and Demonstrate	10	Demonstrate tints and shades. Show complements on the color wheel.
Create	25	High-Contrast Picture.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Big jumps between values instead of even steps.

SUPPORT

- Use only pencil pressure for value.

EXTEND

- Paint a monochromatic (one-color) picture using only tints and shades.

STUDENT LESSON 1.6 · WITH ANSWERS

Lesson 1.6: Value and Contrast

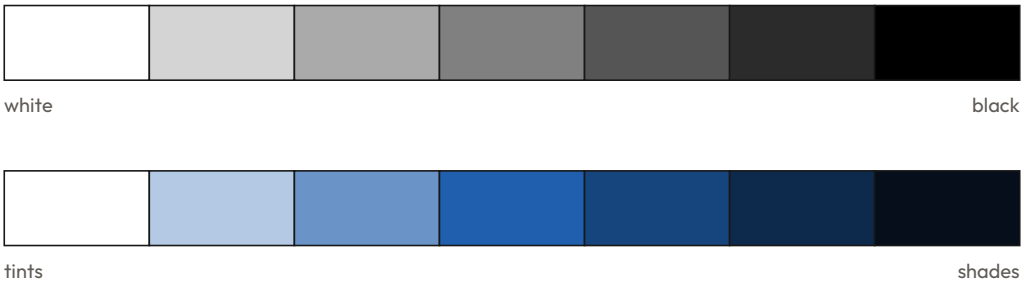

STUDENT'S ASSIGNMENT

- [ ] Do the Warm-Up in Workbook Lesson 1.6, Part A.
- [ ] Read Lesson 1.6 in this book with your teacher.
- [ ] Do the Create activity, High-Contrast Picture, on your Studio Sheet (Workbook Lesson 1.6, Part B).
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.6, Part C.
- [ ] Finish Workbook Lesson 1.6: Parts D–E.

LOOK AND WONDER

Why are stop signs red and white, and school buses yellow and black?

Value is lightness or darkness. Add white to make a tint; add black to make a shade. A value scale shows the steps from light to dark.

Tints and shades of blue.

Contrast is a big difference, and it grabs attention. Light next to dark is high contrast. Complementary colors, which sit opposite each other on the color wheel (red and green, blue and orange, yellow and violet), also make strong contrast.

CREATE · HIGH-CONTRAST PICTURE

How can contrast make one thing stand out?

You need: paint or colored pencils; black and white paint or pencils; paper.

1. Make a 5-step value scale of one color, from tint to shade.
2. Draw a simple subject (a fish, a flower, a rocket).
3. Color the subject with one color and the background with its complement.
4. Check: does your subject pop out?

Record: your value scale and your high-contrast picture.

★ KEY IDEA

Tints are lighter, shades are darker; contrast (light vs dark, or complements) makes things stand out.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What do you add to make a tint?

Answer: white

2. What is the complement of blue?

Answer: orange

3. Why are school buses yellow and black?

Answer: high contrast is easy to see

Workbook Answer Key · Lesson 1.6

#	Question	Answer
1	Lightness or darkness	value
2	Color + black =	shade
3	Make a 5-step value scale with your pencil, from lightest to darkest.	Five clearly different, evenly stepped values.
4	Sketch a subject that stands out using contrast.	Clear contrast between subject and background.
5	What do you add to make a tint?	white
6	What is the complement of blue?	orange
7	Why are school buses yellow and black?	high contrast is easy to see
8	Complement of red	green
9	Complement of yellow	violet
10	Pink is a ___ of red.	tint
11	Navy is a ___ of blue.	shade
12	Name a place you see contrast used to get attention (a sign, a logo, a jersey).	Answers vary.

SKETCHBOOK CHECK · ANSWER KEY
After Lesson 1.6

About 15 minutes

Sketchbook Check 3: Color and Value — Answer Key

Answers

#	Question	Answer
1	Blue + yellow =	green
2	Complement of orange	blue
3	Color + white =	tint
4	Name a tertiary color.	e.g. red-violet
5	Make a 5-step value scale.	Even steps from light to dark.

LESSON 1.7 · TEACHER PLAN
Week 4 · Lesson 1 of 2

Unit 1: The Elements of Art

Lesson 1.7: Composition

Student goal	I can plan a composition with a clear focal point and balance.
Objective	Students plan compositions using thumbnails.
Standard	NCAS VA:Cr1, VA:Cr2 — Generate and conceptualize artistic ideas.
Pacing	Unit 1, week 4, lesson 1 of 2
Time	About 45 minutes
Materials	Pencils, paper, workbook Lesson 1.7
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Photos and the middle.
Learn and Demonstrate	10	Show rule of thirds; discuss The Great Wave.
Create	25	Thumbnail Planning.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Making thumbnails too detailed.

SUPPORT

- Pre-drawn thumbnail boxes.

EXTEND

- Take four photos of one object using different compositions.

STUDENT LESSON 1.7 · WITH ANSWERS

Lesson 1.7: Composition

STUDENT'S ASSIGNMENT

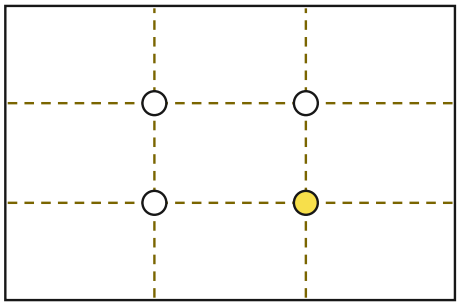

- [ ] Do the Warm-Up in Workbook Lesson 1.7, Part A.
- [ ] Read Lesson 1.7 in this book with your teacher.
- [ ] Do the Create activity, Thumbnail Planning, on your Studio Sheet (Workbook Lesson 1.7, Part B).
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.7, Part C.
- [ ] Finish Workbook Lesson 1.7: Part D.

LOOK AND WONDER

When you take a photo, do you always put the main thing right in the middle? What happens if you don't?

Composition is how an artist arranges everything in the picture. A strong composition has a focal point, the spot your eye goes to first, and balance. Symmetrical balance is the same on both sides; asymmetrical balance uses different things that feel equally weighted.

Many artists place the focal point a little off center. Divide the picture into thirds both ways; the four places where the lines cross are strong spots for a focal point.

In The Great Wave off Kanagawa (about 1831), the Japanese artist Katsushika Hokusai placed a huge curling wave on the left and a tiny Mount Fuji low in the middle, framed by the wave.

CREATE · THUMBNAIL PLANNING

Which arrangement makes the strongest picture?

You need: pencil; paper.

1. Choose a subject: your pet, your house, or a favorite place.
2. Draw four small boxes (thumbnails).
3. Sketch the subject a different way in each: centered, off center, close up, far away.
4. Circle the strongest one and explain why.

Record: four thumbnails with your choice circled.

★ KEY IDEA

Plan the arrangement: choose a focal point (often off center), balance the picture, and try ideas small first.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What is a focal point?

Answer: the part your eye goes to first

2. What kind of balance is the same on both sides?

Answer: symmetrical

3. What is a thumbnail sketch?

Answer: a small, quick planning drawing

Workbook Answer Key · Lesson 1.7

#	Question	Answer
1	How parts are arranged	composition
2	Balance that is different on each side but still feels even	asymmetrical
3	Draw four thumbnail sketches of one subject. Circle your best composition.	Four varied thumbnails; one circled with a reason.
4	Why is the thumbnail you circled the strongest?	Answers vary. Check that every part is filled in and matches what the student did.
5	What is a focal point?	the part your eye goes to first
6	What kind of balance is the same on both sides?	symmetrical
7	What is a thumbnail sketch?	a small, quick planning drawing
8	Why do artists make thumbnails before a final piece?	To try ideas quickly and choose the strongest one before spending time on a final.

LESSON 1.8 · TEACHER PLAN
Week 4 · Lesson 2 of 2
Unit 1: The Elements of Art

Lesson 1.8: Revision and Kind, Specific Feedback

Student goal	I can give and use kind, specific, helpful feedback to improve my artwork.
Objective	Students give feedback and revise artwork.
Standard	NCAS VA:Cr3, VA:Re9 — Refine and complete artistic work; apply criteria to evaluate work.
Pacing	Unit 1, week 4, lesson 2 of 2
Time	About 45 minutes
Materials	Thumbnails, paper, color media, workbook Lesson 1.8, Unit 1 Review
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Helpful vs unhelpful comments.
Learn and Demonstrate	10	Show Austin's Butterfly if available. Model kind, specific, helpful feedback.
Create	25	Draft, Feedback, Final.
Reflect	5	Students compare draft and final; store both in the portfolio. Next: Unit 1 Portfolio Review.

COMMON MISCONCEPTIONS

- Feedback that is only praise.

SUPPORT

- Feedback sentence starters.

EXTEND

- Give feedback on a sibling's work.

STUDENT LESSON 1.8 · WITH ANSWERS

Lesson 1.8: Revision and Kind, Specific Feedback

STUDENT'S ASSIGNMENT

- [ ] Do the Warm-Up in Workbook Lesson 1.8, Part A.
- [ ] Read Lesson 1.8 in this book with your teacher.
- [ ] Do the Create activity, Draft, Feedback, Final, on your Studio Sheet (Workbook Lesson 1.8, Part B).
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.8, Part C.
- [ ] Finish Workbook Lesson 1.8: Parts D–E.

LOOK AND WONDER

What's more helpful: "It's good!" or "The eyes look great; maybe make the background darker so your face stands out"?

Artists rarely get it right the first time. They make drafts, get feedback, and revise. Good feedback is kind (respectful), specific (names exactly what to look at), and helpful (gives an idea to try).

In a well-known video called Austin's Butterfly, a first grader named Austin draws a butterfly six times. After each draft, classmates give kind, specific feedback, and his final drawing is amazingly detailed. Watch it with your teacher if you can.

Instead of…	Try…
"I like it."	"I like how your wavy lines make the water look like it's moving."
"It's bad."	"The house is small; could you make it bigger so it's the focal point?"
"Fix the colors."	"Try a complementary color behind the bird so it stands out."

CREATE · DRAFT, FEEDBACK, FINAL

How much can feedback improve a drawing?

You need: your best thumbnail from Lesson 1.7; paper; colored pencils or paint.

1 Make a larger draft from your thumbnail.

2 Ask your teacher or a family member for one kind, specific, helpful comment.

3 Revise based on the feedback.

4 Add color, using value and contrast.

5 Put your draft and final side by side.

Record: your draft, the feedback, and your final piece for your portfolio.

★ KEY IDEA

Kind, specific, helpful feedback plus revision makes art (and everything else) better.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. Name the three parts of good feedback.

Answer: kind, specific, helpful

2. What did Austin do to improve his butterfly?

Answer: made several drafts and used classmates' feedback

3. What does revise mean?

Answer: to change and improve your work

Workbook Answer Key · Lesson 1.8

#	Question	Answer
1	To change and improve	revise
2	A thoughtful discussion of art	critique
3	Draft: sketch your plan here.	Answers vary. Check that every part is filled in and matches what the student did.
4	Record your results in the table. (figure)	Answers vary. Check that every part is filled in and matches what the student did.
5	Final piece: draw your revised composition here (or attach your painting).	Shows revision from draft; uses line, shape, color, value, and composition.
6	Name the three parts of good feedback.	kind, specific, helpful
7	What did Austin do to improve his butterfly?	made several drafts and used classmates' feedback
8	What does revise mean?	to change and improve your work

#	Question	Answer
9	Rewrite “It's nice” as kind, specific, helpful feedback for a picture of a dog.	e.g. I like the fluffy texture of the fur; maybe add a shadow under the dog so it looks like it's standing on the ground.
10	What feedback did you use, and how did it change your art?	Answers vary.

UNIT REVIEW · ANSWER KEY
Study before the unit test

About 30 minutes

Unit 1 Review — Answer Key

Use as a study session or portfolio sort before the review.

Answers

#	Question	Answer
1	line	a mark from one point to another
2	form	3-D object
3	proportion	size relationships
4	value	lightness or darkness
5	contrast	a big difference, such as light vs dark
6	focal point	where the eye goes first
7	Gather your best work from Unit 1. Which piece shows the most growth? Why?	Answers vary.

PORTFOLIO REVIEW · ANSWER KEY
At the end of the unit
About 45 minutes

Unit 1 Portfolio Review — Answer Key

Answers

#	Question	Answer
1	Which is a form? A. circle B. sphere C. square	B. sphere
2	Red, yellow, and blue are... A. secondary colors B. primary colors C. tertiary colors	B. primary colors
3	What does adding black make?	a shade
4	Which line direction shows calm?	horizontal
5	Name the complement of violet.	yellow
6	Where should a focal point often go?	a little off center (on a rule-of-thirds spot)
7	Choose one artwork from this unit (The Starry Night, The Snail, The Great Wave, or a Walter Anderson painting). Describe how the artist used two elements of art.	Rubric: names two elements (1); accurate details from the artwork (1); explains the effect (1).
8	Choose your final piece from Lesson 1.8. Your teacher will score it with this rubric. Then write two sentences about your choices.	Rubric (1 point each): clear focal point; varied line; shapes and forms; color mixing; value or contrast; evidence of revision from draft.

Scoring

Score	What it means / next step
13–15 (85%+)	Excellent: strong skills and thoughtful choices.
11–12	Solid: revisit one technique.
Below 11	Redo one studio activity with support.

UNIT 2 · TEACHER OVERVIEW

Art Around the World

African masks and bronzes, kente and adinkra, Chinese calligraphy, landscape, and porcelain, early American portraits and buildings, and a family gallery.

People everywhere make art to celebrate, to remember, and to share what matters to them. In this unit you'll travel to West Africa to see masks, bronzes, and woven kente cloth, to China to practice calligraphy, paint misty mountains, and decorate porcelain-style pots, and to the early United States to study portraits and buildings, including one in Jackson. You'll finish by curating your own family gallery.

Big ideas

- Explain how art connects to culture and history in Africa, China, and early America.
- Use symbols and patterns, expressive brushstrokes, and atmospheric perspective.
- Create a pinch pot, a portrait with attributes, and a symmetrical building design.
- Curate, label, and present your artwork.

Standards

Code	Standard
NCAS VA:Cr1–3	Generate, develop, and refine artwork.
NCAS VA:Pr4–6	Select, prepare, and present artwork.
NCAS VA:Re7–8, VA:Cn10–11	Interpret art and connect it to culture and history.

What students should already know

- The elements of art (Unit 1).

Materials for the unit

- Paper plates, paper strips, drawing paper

- Markers, crayons, colored pencils
- Black watercolor or ink and a round brush
- Air-dry clay and blue paint
- A potato or foam for stamps
- Index cards for labels
- Portfolio folder

Pacing guide

Teach the lessons in order, then give the week's check. Set the days to fit your own calendar.

Week	Order	Lesson	Title
Week 1	Lesson 1 of 2	2.1	Art of Africa: Masks and Leaders
Week 1	Lesson 2 of 2	2.2	Kente Cloth and Adinkra Symbols
Week 1	End of week	Check	Sketchbook Check 1: Art of Africa
Week 2	Lesson 1 of 2	2.3	Chinese Calligraphy
Week 2	Lesson 2 of 2	2.4	Chinese Landscape Painting
Week 2	End of week	Check	Sketchbook Check 2: Art of China
Week 3	Lesson 1 of 2	2.5	Chinese Porcelain: Blue and White
Week 3	Lesson 2 of 2	2.6	Early American Portraits
Week 3	End of week	Check	Sketchbook Check 3: Porcelain and Portraits
Week 4	Lesson 1 of 2	2.7	Early American Buildings
Week 4	Lesson 2 of 2	2.8	Curating a Family Gallery
Week 4	Before the test	Review	Unit 2 Review
Week 4	End of unit	Test	Unit 2 Portfolio Review

TEACHING THIS UNIT AT HOME

Visit an art museum online or in person, choose one artwork from a culture new to you, and play See, Think, Wonder together.

UNIT VOCABULARY

symbol	A picture that stands for an idea.
pattern	A planned repeating design.
calligraphy	Artistic handwriting.
porcelain	Fine white ceramic first made in China.
portrait	An artwork of a person.
curator	A person who arranges art for a show.

LESSON 2.1 · TEACHER PLAN
Week 1 · Lesson 1 of 2

Unit 2: Art Around the World

Lesson 2.1: Art of Africa: Masks and Leaders

Student goal	I can explain how African masks and the Benin bronzes were used and design a mask with symbolic features.
Objective	Students explain the purposes of African masks and Benin bronzes and design a symbolic mask.
Standard	NCAS VA:Re7, VA:Cn11 — Perceive and analyze art; relate artistic ideas to cultural context.
Pacing	Unit 2, week 1, lesson 1 of 2
Time	About 45 minutes
Materials	Paper plates, markers or paint, yarn, workbook Lesson 2.1
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	A mask that shows who you are.
Learn and Demonstrate	10	Show museum photos of Bwa and Dan masks and a Benin plaque. Explain masks as part of a performance.
Create	25	Paper Plate Mask.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Treating Africa as one country or one culture.

SUPPORT

- Symbol word bank.

EXTEND

- Explore the Benin collection at a museum website.

STUDENT LESSON 2.1 · WITH ANSWERS

Lesson 2.1: Art of Africa: Masks and Leaders

STUDENT'S ASSIGNMENT

- [ ] Do the Warm-Up in Workbook Lesson 2.1, Part A.
- [ ] Read Lesson 2.1 in this book with your teacher.
- [ ] Do the Create activity, Paper Plate Mask, on your Studio Sheet (Workbook Lesson 2.1, Part B).
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.1, Part C.
- [ ] Finish Workbook Lesson 2.1: Parts D–E.

LOOK AND WONDER

If you made a mask to show who you are, what would it look like? What colors and shapes would you choose?

Africa is a huge continent with more than 50 countries and thousands of cultures, so there is no single "African art." In many West and Central African cultures, artists carve wooden masks for ceremonies. A mask is usually worn with a costume by a dancer, along with music. The whole performance, not just the mask, is the artwork.

Masks use symbols. Among the Bwa people of Burkina Faso, tall flat plank masks are painted with black, white, and red geometric patterns that tell lessons about how to live. Among the Dan people of Liberia and Côte d'Ivoire, smooth oval masks with calm faces stand for beauty and peace. Exaggerated features, like big eyes or a tall forehead, often show wisdom or power.

Art also honored leaders. In the Kingdom of Benin, in what is now Nigeria, skilled metalworkers cast brass and bronze plaques and heads for the Oba, or king, starting more than 500 years ago. Plaques in relief showed the Oba in the center, larger than everyone else, to show his importance.

Feature	What it might mean
large eyes	seeing and knowing a lot; wisdom
tall forehead	intelligence
calm, closed mouth	self-control and peace
geometric patterns	lessons, rules, or stories
the biggest figure in a scene	the most important person

CREATE · PAPER PLATE MASK

How can shapes and colors stand for ideas?

You need: a paper plate; markers or paint; scissors (with an adult); yarn, paper strips, or beads.

1. Choose two ideas about yourself (such as kind, curious, brave).
2. Pick a symbol for each: a shape, a pattern, or an exaggerated feature.
3. Sketch your plan first, then make the mask.
4. Use at least one repeating geometric pattern.

Record: your mask and a label explaining what each symbol means.

★ KEY IDEA

Many African masks are worn in ceremonies with music and dance. Their features and patterns are symbols. Benin artists honored the Oba with bronze reliefs.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What is a symbol?

Answer: a picture or object that stands for an idea

2. Who was the Oba?

Answer: the king of Benin

3. Why might a mask have very large eyes?

Answer: to show wisdom or seeing and knowing a lot

Workbook Answer Key · Lesson 2.1

#	Question	Answer
1	A picture that stands for an idea	symbol
2	A sculpture that sticks out from a flat background	relief
3	Sketch your mask plan. Label each symbol and what it means.	A plan with at least two labeled symbols and a pattern.
4	What does each symbol on your mask mean?	Answers vary. Check that every part is filled in and matches what the student did.
5	What is a symbol?	a picture or object that stands for an idea
6	Who was the Oba?	the king of Benin
7	Why might a mask have very large eyes?	to show wisdom or seeing and knowing a lot
8	Find a photo of an African mask on a museum website with your teacher. Write one See, one Think, and one Wonder.	Answers vary.
9	Why was the Oba shown bigger than the other people on Benin plaques?	to show he was the most important person

LESSON 2.2 · TEACHER PLAN
Week 1 · Lesson 2 of 2
Unit 2: Art Around the World

Lesson 2.2: Kente Cloth and Adinkra Symbols

Student goal	I can describe kente cloth and adinkra symbols and create a pattern with meaning.
Objective	Students describe kente and adinkra and create a meaningful pattern.
Standard	NCAS VA:Cr1, VA:Cn10 — Generate and develop artistic ideas; synthesize knowledge of culture to make art.
Pacing	Unit 2, week 1, lesson 2 of 2
Time	About 45 minutes
Materials	Paper strips, markers, potato or foam stamps, paint, workbook Lesson 2.2
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Patterns at home.
Learn and Demonstrate	10	Show photos of kente and adinkra cloth. Model a repeating pattern and a stamp.
Create	25	Pattern Strips.
Reflect	5	Students share their color meanings; store work in the portfolio. Next: Sketchbook Check.

COMMON MISCONCEPTIONS

- Patterns that don't repeat.

SUPPORT

- Pattern starter grid.

EXTEND

- Weave a paper mat with two colors.

STUDENT LESSON 2.2 · WITH ANSWERS

Lesson 2.2: Kente Cloth and Adinkra Symbols

STUDENT'S ASSIGNMENT

- [ ] Do the Warm-Up in Workbook Lesson 2.2, Part A.
- [ ] Read Lesson 2.2 in this book with your teacher.
- [ ] Do the Create activity, Pattern Strips, on your Studio Sheet (Workbook Lesson 2.2, Part B).
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.2, Part C.
- [ ] Finish Workbook Lesson 2.2: Parts D–E.

LOOK AND WONDER

What patterns can you find on the clothes, blankets, or curtains in your home?

Kente is a famous woven cloth from the Asante (Ashanti) and Ewe peoples of Ghana. Weavers use narrow looms to make long strips about 4 inches wide, then sew many strips together into a large cloth. Bright colors and bold geometric patterns each have names and meanings. Kente was once worn only by royalty; today people wear it for graduations, weddings, and celebrations.

Kente color	Often stands for
gold	wealth and royalty
green	growth and harvest
blue	peace and harmony
red	strength and sacrifice
black	maturity and spiritual energy

Adinkra are symbols from Ghana that stand for proverbs and ideas. Artists carve them into pieces of calabash (gourd) and stamp them onto cloth in rows. Sankofa, a bird looking backward, means “go back and get it”: learn from the past. Gye Nyame stands for the power of God. Each repeating symbol is a motif.

CREATE · PATTERN STRIPS

How can a repeating pattern carry meaning?

You need: strips of paper about 2 inches wide; markers or crayons; a potato or foam piece and a pencil for a stamp (with an adult); paint.

1 Choose three colors and decide what each means to you.

2 Draw a geometric pattern that repeats along two or more paper strips.

3 Carve or press a simple symbol into a potato half or foam and stamp it in a row.

4 Glue the strips side by side, like kente.

Record: your pattern cloth and a key telling what your colors and symbol mean.

Safety: An adult should cut or carve the stamp.

★ KEY IDEA

Kente is woven in strips with meaningful colors and patterns. Adinkra symbols stand for proverbs and are stamped in repeating rows.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. Where does kente cloth come from?

Answer: Ghana (the Asante and Ewe peoples)

2. What does the Sankofa symbol mean?

Answer: go back and get it; learn from the past

3. What is a motif?

Answer: a shape or design that repeats in an artwork

Workbook Answer Key · Lesson 2.2

#	Question	Answer
1	A repeating planned design	pattern
2	To make cloth by crossing threads	weave
3	Design your own symbol for an idea that matters to you. Repeat it three times in a row.	An original symbol repeated as a motif.
4	Make a key for your pattern cloth. (figure)	Answers vary. Check that every part is filled in and matches what the student did.
5	Where does kente cloth come from?	Ghana (the Asante and Ewe peoples)
6	What does the Sankofa symbol mean?	go back and get it; learn from the past
7	What is a motif?	a shape or design that repeats in an artwork

#	Question	Answer
8	Kente gold often stands for…	wealth and royalty
9	Kente green often stands for…	growth and harvest
10	How are adinkra symbols printed?	stamped with carved calabash pieces
11	How are kente strips joined?	sewn together side by side
12	Explain what your pattern cloth's colors and symbol mean.	Answers vary; meanings for colors and symbol.

SKETCHBOOK CHECK · ANSWER KEY
After Lesson 2.2

About 15 minutes

Sketchbook Check 1: Art of Africa — Answer Key

Answers

#	Question	Answer
1	A picture that stands for an idea	a symbol
2	The king of Benin	the Oba
3	Woven cloth from Ghana	kente
4	Adinkra symbol meaning “go back and get it”	Sankofa
5	Draw a repeating pattern with one symbol of your own.	A pattern that repeats a symbol at least three times.

LESSON 2.3 · TEACHER PLAN
Week 2 · Lesson 1 of 2

Unit 2: Art Around the World

Lesson 2.3: Chinese Calligraphy

Student goal	I can describe Chinese calligraphy and use a brush to make thick, thin, and expressive strokes.
Objective	Students practice expressive brushstrokes in the calligraphy tradition.
Standard	NCAS VA:Cr2, VA:Re7 — Develop craftsmanship with tools; analyze how artists express ideas.
Pacing	Unit 2, week 2, lesson 1 of 2
Time	About 45 minutes
Materials	Round brushes, black watercolor or ink, newsprint, workbook Lesson 2.3
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Slow vs fast name.
Learn and Demonstrate	10	Show the Four Treasures (or photos). Demonstrate pressure and stroke order.
Create	25	Brush Stroke Practice.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Pressing hard the whole time.

SUPPORT

- Practice on wet newspaper first.

EXTEND

- Write a short word in calligraphy and hang it.

STUDENT LESSON 2.3 · WITH ANSWERS

Lesson 2.3: Chinese Calligraphy

STUDENT'S ASSIGNMENT

- [ ] Do the Warm-Up in Workbook Lesson 2.3, Part A.
- [ ] Read Lesson 2.3 in this book with your teacher.
- [ ] Do the Create activity, Brush Stroke Practice, on your Studio Sheet (Workbook Lesson 2.3, Part B).
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.3, Part C.
- [ ] Finish Workbook Lesson 2.3: Parts D–E.

LOOK AND WONDER

Write your name very slowly, then very fast. How does it look different? Does it show a different feeling?

In China, calligraphy, or beautiful writing, has been honored as one of the highest forms of art for more than 2,000 years. Chinese is written with characters, each built from strokes in a set order. A skilled calligrapher's strokes show energy, balance, and even the writer's mood.

Calligraphers use the Four Treasures: a soft-tipped brush, an ink stick made of soot and glue, an inkstone for grinding the ink stick with water, and paper (invented in China). Pressing down makes a thick stroke; lifting up makes a thin one. Because ink soaks in right away, each stroke must be made confidently, with no erasing.

Character	Meaning	Strokes
人	person	2
山	mountain	3
水	water	4
木	tree	4

STEP BY STEP · MAKE A CALLIGRAPHY STROKE

How do you make a stroke that starts thick and ends thin?

1 Hold the brush straight up, gripping it lightly near the middle.

2 Press down to start, so the bristles spread.

3 Move steadily and slowly lift as you finish.

Look for: Changing pressure changes the thickness of the stroke.

CREATE · BRUSH STROKE PRACTICE

How does pressure change a brushstroke?

You need: a soft round paintbrush; black watercolor or ink; newspaper or thin paper; a cup of water.

1 Make a row of strokes, pressing harder on each one.

2 Make strokes that go from thick to thin and thin to thick.

3 Copy the character for mountain (山) three times, following the stroke order your teacher shows.

4 Circle your best one.

Record: your stroke practice page with your best character circled.

Safety: Cover your work space; ink can stain.

★ KEY IDEA

Chinese calligraphy is an honored art form. Calligraphers use the Four Treasures and change brush pressure to make thick and thin, expressive strokes.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What are the Four Treasures?

Answer: brush, ink stick, inkstone, and paper

2. How do you make a thick stroke?

Answer: press down on the brush

3. Why can't calligraphers erase?

Answer: The ink soaks into the paper right away.

Workbook Answer Key · Lesson 2.3

#	Question	Answer
1	Beautiful, artistic handwriting	calligraphy
2	One mark made without lifting the brush	stroke
3	Copy the character for tree (木). Then make three strokes that show a feeling: calm, excited, and strong.	Character copied; three strokes with different pressure and speed.
4	Which character came out best? What made it work?	Answers vary. Check that every part is filled in and matches what the student did.
5	What are the Four Treasures?	brush, ink stick, inkstone, and paper
6	How do you make a thick stroke?	press down on the brush
7	Why can't calligraphers erase?	The ink soaks into the paper right away.
8	Which treasure is ground with water?	the ink stick (on the inkstone)
9	What does the character 人 mean?	person
10	How old is the art of Chinese calligraphy?	more than 2,000 years
11	Which character means mountain?	山
12	How can a single brushstroke show a feeling?	Its thickness, speed, and shape (smooth or rough) can feel calm, strong, or excited.

LESSON 2.4 · TEACHER PLAN
Week 2 · Lesson 2 of 2

Unit 2: Art Around the World

Lesson 2.4: Chinese Landscape Painting

Student goal	I can describe Chinese landscape painting and use overlapping and fading to show distance.
Objective	Students use atmospheric perspective and overlap to show distance.
Standard	NCAS VA:Cr2, VA:Re7 — Develop artistic ideas; analyze how artists convey space and meaning.
Pacing	Unit 2, week 2, lesson 2 of 2
Time	About 45 minutes
Materials	Long paper strips, black watercolor, brushes, workbook Lesson 2.4
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Near and far trees.
Learn and Demonstrate	10	Show Fan Kuan's scroll. Demonstrate mixing three values of gray.
Create	25	Misty Mountain Scroll.
Reflect	5	Students compare near and far mountains; store scrolls flat. Next: Sketchbook Check.

COMMON MISCONCEPTIONS

- Painting distant mountains dark.

SUPPORT

- Value strip as a guide.

EXTEND

- Add a short poem beside your scroll, as Chinese painters often did.

STUDENT LESSON 2.4 · WITH ANSWERS

Lesson 2.4: Chinese Landscape Painting

STUDENT'S ASSIGNMENT

- [ ] Do the Warm-Up in Workbook Lesson 2.4, Part A.
- [ ] Read Lesson 2.4 in this book with your teacher.
- [ ] Do the Create activity, Misty Mountain Scroll, on your Studio Sheet (Workbook Lesson 2.4, Part B).
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.4, Part C.
- [ ] Finish Workbook Lesson 2.4: Parts D–E.

LOOK AND WONDER

Look out a window. Are faraway trees as clear and dark as the ones up close? What do you notice?

Chinese artists call landscape painting shan shui, which means “mountain-water.” For more than 1,000 years, painters have used brush and ink to show tall mountains, rushing waterfalls, misty valleys, and tiny people or houses. The paintings often show how small people are next to the greatness of nature.

Many landscapes are painted on tall, hanging scrolls. One famous painting, Travelers Among Mountains and Streams by Fan Kuan, made around 1000 CE, shows a giant mountain towering over a line of tiny travelers and their mules. You have to look closely to find them!

Chinese painters show distance with atmospheric perspective: nearby mountains are dark and detailed, and faraway ones are pale and soft, as if seen through mist. They also overlap shapes, so closer hills cover part of farther ones. Empty paper becomes clouds, mist, or water.

CREATE · MISTY MOUNTAIN SCROLL

Can you show distance with dark and light ink?

You need: a long strip of paper (like a scroll); black watercolor; a brush; water in a cup.

1. Mix three values of gray: very light, medium, and dark.
2. Paint the farthest mountains at the top in the lightest gray.
3. Paint closer, overlapping mountains lower down in medium gray.
4. Paint the closest rocks and trees at the bottom in dark ink, and add one tiny person or house. Leave white space for mist.

Record: your finished scroll with three values and overlapping mountains.

★ KEY IDEA

Chinese landscape painting (shan shui) shows mountains and water. Artists overlap shapes and make faraway things pale to show distance, and use empty space for mist.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What does shan shui mean?

Answer: mountain-water

2. Who painted Travelers Among Mountains and Streams?

Answer: Fan Kuan

3. How do painters make mountains look far away?

Answer: They paint them lighter, paler, and with less detail (atmospheric perspective).

Workbook Answer Key · Lesson 2.4

#	Question	Answer
1	An artwork showing natural scenery	landscape
2	A long roll that holds a painting	scroll
3	Sketch three overlapping mountains. Shade the closest one darkest and the farthest one lightest.	Overlap and value change from near (dark) to far (light).
4	How did you show the three values in your finished scroll?	Answers vary. Check that every part is filled in and matches what the student did.
5	What does shan shui mean?	mountain-water
6	Who painted Travelers Among Mountains and Streams?	Fan Kuan
7	How do painters make mountains look far away?	They paint them lighter, paler, and with less detail (atmospheric perspective).
8	Look at Travelers Among Mountains and Streams on a museum website. Describe how Fan Kuan made the mountain feel huge.	e.g. the mountain fills the top of the painting; the travelers are tiny at the bottom.
9	Why do Chinese landscape painters often show tiny people?	to show how small people are next to the greatness of nature

SKETCHBOOK CHECK · ANSWER KEY
After Lesson 2.4

About 15 minutes

Sketchbook Check 2: Art of China — Answer Key

Answers

#	Question	Answer
1	Beautiful, artistic handwriting	calligraphy
2	The Four Treasures	brush, ink stick, inkstone, paper
3	What shan shui means	mountain-water
4	How faraway mountains are painted	lighter and paler, with less detail
5	Draw two overlapping mountains: one near (dark) and one far (light).	Overlap and value change.

LESSON 2.5 · TEACHER PLAN
Week 3 · Lesson 1 of 2

Unit 2: Art Around the World

Lesson 2.5: Chinese Porcelain: Blue and White

Student goal	I can describe how Chinese porcelain was made and traded and decorate a pot with a blue-and-white design.
Objective	Students describe Chinese porcelain and make a decorated pinch pot.
Standard	NCAS VA:Cr1, VA:Cn11 — Make art using materials and techniques; relate art to its cultural and historical context.
Pacing	Unit 2, week 3, lesson 1 of 2
Time	About 45 minutes
Materials	Air-dry clay, blue markers or paint, workbook Lesson 2.5
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Why “china”?
Learn and Demonstrate	10	Show Ming blue-and-white vases. Demonstrate a pinch pot.
Create	25	Blue-and-White Pinch Pot.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Walls too thin or uneven.

SUPPORT

- Pinch-and-turn rhythm count.

EXTEND

- Find a piece of “china” at home and look for where it was made.

STUDENT LESSON 2.5 · WITH ANSWERS

Lesson 2.5: Chinese Porcelain: Blue and White

STUDENT'S ASSIGNMENT

- [ ] Do the Warm-Up in Workbook Lesson 2.5, Part A.
- [ ] Read Lesson 2.5 in this book with your teacher.
- [ ] Do the Create activity, Blue-and-White Pinch Pot, on your Studio Sheet (Workbook Lesson 2.5, Part B).
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.5, Part C.
- [ ] Finish Workbook Lesson 2.5: Parts D–E.

LOOK AND WONDER

Why do you think people call fancy plates and cups “china”?

Ceramics are made of clay hardened in a kiln. Chinese potters invented porcelain, a white, very hard, almost see-through ceramic made from a special white clay and fired at extremely high heat. For centuries, people in other lands couldn't figure out how to make it. That's why fine dishes are still called “china.”

During the Ming dynasty (1368–1644), potters in the city of Jingdezhen made famous blue-and-white porcelain. They painted designs with cobalt blue under a clear glaze: dragons, flowers, waves, and clouds. Ships and caravans carried these pieces to Asia, Africa, the Middle East, and Europe, where artists tried to copy them.

Step	What happens
1. shape	Shape the clay on a potter's wheel or by hand.
2. dry	Let the piece dry slowly.
3. paint	Paint the design in cobalt blue.
4. glaze	Cover it with a clear glaze.
5. fire	Fire it in a kiln at very high heat; the glaze turns glassy.

CREATE · BLUE-AND-WHITE PINCH POT

Can you decorate a pot in the Ming style?

You need: air-dry clay (a ball about the size of an orange); a blue marker or blue paint and a thin brush; a pencil.

1 Push your thumb into the ball and pinch the walls evenly as you turn it.

2 Smooth any cracks with a wet finger and let it dry.

3 Plan a design with a border band and one main picture (a flower, wave, or cloud).

4 Paint the design in blue only.

Record: your pot and a sketch of your design plan.

★ KEY IDEA

Chinese potters invented porcelain. Ming blue-and-white porcelain, painted in cobalt blue under a glaze, was traded around the world.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What is porcelain?

Answer: a fine, hard, white ceramic first made in China

2. What color did Ming potters paint with?

Answer: cobalt blue

3. Why are fancy dishes called “china”?

Answer: Porcelain was first made in China, and others couldn't copy it for centuries.

Workbook Answer Key · Lesson 2.5

#	Question	Answer
1	A very hot oven for clay	kiln
2	A glassy coating on ceramics	glaze
3	Plan your pot's design: a border band and one main picture.	A border band plus a main motif.
4	What was hardest about pinching the pot? What would you do differently?	Answers vary. Check that every part is filled in and matches what the student did.
5	What is porcelain?	a fine, hard, white ceramic first made in China
6	What color did Ming potters paint with?	cobalt blue
7	Why are fancy dishes called “china”?	Porcelain was first made in China, and others couldn't copy it for centuries.
8	In which city were famous Ming porcelains made?	Jingdezhen

#	Question	Answer
9	Name two designs on blue-and-white porcelain.	e.g. dragons, flowers, waves, clouds
10	Name two places porcelain was traded to.	e.g. Africa, the Middle East, Europe, other parts of Asia
11	Which step makes the glaze glassy?	firing in the kiln
12	How did trade spread Chinese porcelain and its style?	Ships and caravans carried it to other lands, where artists copied it.

LESSON 2.6 · TEACHER PLAN
Week 3 · Lesson 2 of 2
Unit 2: Art Around the World

Lesson 2.6: Early American Portraits

Student goal	I can explain how early American portraits show a person's importance and character, and draw a portrait with meaningful objects.
Objective	Students analyze early American portraits and create a portrait with attributes.
Standard	NCAS VA:Re8, VA:Cn11 — Interpret meaning in artworks; connect art to history.
Pacing	Unit 2, week 3, lesson 2 of 2
Time	About 45 minutes
Materials	Drawing paper, pencils, colored pencils, mirrors, workbook Lesson 2.6
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Objects that show who you are.
Learn and Demonstrate	10	Show Stuart's Washington portraits and a Joshua Johnson family portrait. Review face proportions from Unit 1.
Create	25	Portrait with Attributes.
Reflect	5	Students explain their attributes to a partner; store work in the portfolio. Next: Sketchbook Check.

COMMON MISCONCEPTIONS

- Drawing eyes too high on the head.

SUPPORT

- Proportion guide lines.

EXTEND

- Visit the National Portrait Gallery website.

STUDENT LESSON 2.6 · WITH ANSWERS

Lesson 2.6: Early American Portraits

STUDENT'S ASSIGNMENT

- [ ] Do the Warm-Up in Workbook Lesson 2.6, Part A.
- [ ] Read Lesson 2.6 in this book with your teacher.
- [ ] Do the Create activity, Portrait with Attributes, on your Studio Sheet (Workbook Lesson 2.6, Part B).
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.6, Part C.
- [ ] Finish Workbook Lesson 2.6: Parts D–E.

LOOK AND WONDER

If someone painted your portrait, what objects would you want in it to show who you are?

Before cameras, painted portraits were the only way to remember what someone looked like. In the early United States, portraits also showed what kind of person someone was. Artists chose the pose, clothing, background, and objects carefully.

Gilbert Stuart painted George Washington many times. His unfinished 1796 portrait is the face on the one-dollar bill. In his full-length Lansdowne Portrait, also from 1796, Washington stands with his arm stretched out like a speaker, beside a table with law books, a pen, and a sword. These attributes tell viewers he is a leader of a new nation of laws.

Charles Willson Peale painted more than 1,000 portraits, including many heroes of the American Revolution, and even started one of the country's first museums. Joshua Johnson, one of the first well-known African American portrait painters, painted families in Baltimore around 1800.

Part of the portrait	What it can tell us
pose	confident, thoughtful, or relaxed
clothing	job, wealth, or a special event
attributes (objects)	interests, work, or values, such as books for learning
background	where the person lives or what they care about

CREATE · PORTRAIT WITH ATTRIBUTES

How can objects tell a viewer about a person?

You need: drawing paper; pencil; colored pencils; a mirror or a family member to draw.

1 Choose your subject: yourself (with a mirror) or a family member.

2 Lightly draw the head shape and place the eyes halfway down, as you learned in Unit 1.

3 Add a pose and at least two attributes that tell about the person.

4 Add a background that fits them.

Record: your portrait and a label naming each attribute and what it shows.

★ KEY IDEA

Early American portraits used pose, clothing, background, and attributes to show a person's importance and character.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. Whose face is on the one-dollar bill, and who painted it?

Answer: George Washington, painted by Gilbert Stuart

2. What is an attribute in a portrait?

Answer: an object that tells something about the person

3. Why were portraits important before cameras?

Answer: They were the only way to remember what someone looked like.

Workbook Answer Key · Lesson 2.6

#	Question	Answer
1	An artwork of a particular person	portrait
2	The way a person sits or stands in art	pose
3	Sketch your portrait plan. Label the pose and two attributes.	A sketch with a labeled pose and two attributes.
4	Record your results in the table. (figure)	Answers vary. Check that every part is filled in and matches what the student did.
5	Whose face is on the one-dollar bill, and who painted it?	George Washington, painted by Gilbert Stuart
6	What is an attribute in a portrait?	an object that tells something about the person

#	Question	Answer
7	Why were portraits important before cameras?	They were the only way to remember what someone looked like.
8	Look at Gilbert Stuart's Lansdowne Portrait of Washington on a museum website. Name two attributes and what each tells you.	e.g. law books: a nation of laws; sword: military leader; pen: signing documents.
9	Which attribute in your portrait tells the most about your subject? Why?	Answers vary.

SKETCHBOOK CHECK · ANSWER KEY
After Lesson 2.6

About 15 minutes

Sketchbook Check 3: Porcelain and Portraits — Answer Key

Answers

#	Question	Answer
1	Fine white ceramic first made in China	porcelain
2	Color of Ming designs	cobalt blue
3	Painter of the dollar-bill Washington	Gilbert Stuart
4	An object in a portrait that tells about the person	an attribute
5	Name one attribute you used in your portrait and what it shows.	Answers vary.

LESSON 2.7 · TEACHER PLAN
Week 4 · Lesson 1 of 2

Unit 2: Art Around the World

Lesson 2.7: Early American Buildings

Student goal	I can identify columns, domes, and symmetry in early American buildings and design a building front.
Objective	Students identify features of early American architecture and design a symmetrical building front.
Standard	NCAS VA:Re7, VA:Cn11 — Analyze how design communicates ideas; connect art to history and place.
Pacing	Unit 2, week 4, lesson 1 of 2
Time	About 45 minutes
Materials	Paper, rulers, pencils, workbook Lesson 2.7
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Shapes on a capitol.
Learn and Demonstrate	10	Show Monticello, the U.S. Capitol, and Mississippi's Old Capitol. Compare the three column styles.
Create	25	Design a Building Front.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Designs that are not symmetrical.

SUPPORT

- Fold-line guide for symmetry.

EXTEND

- Visit the Old Capitol Museum in Jackson or its website.

STUDENT LESSON 2.7 · WITH ANSWERS

Lesson 2.7: Early American Buildings

STUDENT'S ASSIGNMENT

- [ ] Do the Warm-Up in Workbook Lesson 2.7, Part A.
- [ ] Read Lesson 2.7 in this book with your teacher.
- [ ] Do the Create activity, Design a Building Front, on your Studio Sheet (Workbook Lesson 2.7, Part B).
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.7, Part C.
- [ ] Finish Workbook Lesson 2.7: Parts D–F.

LOOK AND WONDER

Picture a courthouse or a capitol building. What shapes do you see on the front?

When the United States was new, its leaders wanted buildings that looked strong, wise, and fair. They borrowed ideas from ancient Greece and Rome, the first places with democracies and republics. Many buildings have tall columns, a triangle-shaped top called a pediment, a round dome, and perfect symmetry.

Thomas Jefferson, the third president, was also an architect. He designed his home, Monticello, in Virginia, with columns and a dome, and he helped plan the University of Virginia. The U.S. Capitol in Washington, D.C., where Congress meets, has a huge dome and rows of columns.

Mississippi has an example too. The Old Capitol in Jackson, finished in 1839, is built in the Greek Revival style, with tall columns and a dome. It was Mississippi's capitol building for more than 60 years and is now a museum.

Column style	What its top looks like
Doric	plain and simple
Ionic	curled scrolls, like rolled paper
Corinthian	fancy, carved leaves

CREATE · DESIGN A BUILDING FRONT

How do columns, a pediment, and symmetry make a building look important?

You need: drawing paper; a ruler; a pencil; a folded paper to check symmetry.

1 Fold your paper in half to find the center line.

2 Draw a pediment and four to six columns, matching on both sides.

3 Choose a column style: Doric, Ionic, or Corinthian.

4 Add a door in the center and a dome or steps if you like. Name your building.

Record: your symmetrical building design with its name and column style labeled.

★ KEY IDEA

Early American buildings borrowed columns, pediments, domes, and symmetry from ancient Greece and Rome to look strong and wise. Mississippi's Old Capitol is a Greek Revival example.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What is symmetry?

Answer: balance in which both sides match like a mirror image

2. Who designed Monticello?

Answer: Thomas Jefferson

3. What style is Mississippi's Old Capitol?

Answer: Greek Revival

Workbook Answer Key · Lesson 2.7

#	Question	Answer
1	A rounded roof like half a ball	dome
2	A tall post holding up a building	column
3	Draw your building front. Make it symmetrical. Label the column style and give it a name.	Answers vary. Check that every part is filled in and matches what the student did.
4	What is symmetry?	balance in which both sides match like a mirror image
5	Who designed Monticello?	Thomas Jefferson
6	What style is Mississippi's Old Capitol?	Greek Revival
7	Plain, simple column tops	Doric
8	Column tops with curled scrolls	Ionic
9	Column tops with carved leaves	Corinthian
10	Where does Congress meet?	the U.S. Capitol

#	Question	Answer
11	Find a building in your town (or online) with columns or a dome. Describe it and tell what style it reminds you of.	Answers vary.
12	Why did early American leaders want buildings that looked like Greek and Roman temples?	Greece and Rome had the first democracies and republics, so the style looked strong, wise, and fair.

LESSON 2.8 · TEACHER PLAN
Week 4 · Lesson 2 of 2

Unit 2: Art Around the World

Lesson 2.8: Curating a Family Gallery

Student goal	I can choose, arrange, and label artworks for a family gallery and explain my choices.
Objective	Students curate and present a family gallery.
Standard	NCAS VA:Pr4, VA:Pr5, VA:Pr6 — Select, analyze, and present artwork; convey meaning through presentation.
Pacing	Unit 2, week 4, lesson 2 of 2
Time	About 45 minutes
Materials	Student artworks, index cards, tape, workbook Lesson 2.8, Unit 2 Review
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Where do eyes go first?
Learn and Demonstrate	10	Model writing a label. Model arranging work at eye level.
Create	25	Family Gallery.
Reflect	5	Students give a gallery tour. Next: Unit 2 Portfolio Review.

COMMON MISCONCEPTIONS

- Labels that only give a title.

SUPPORT

- Label template card.

EXTEND

- Make a printed or digital catalog of your gallery.

STUDENT LESSON 2.8 · WITH ANSWERS

Lesson 2.8: Curating a Family Gallery

STUDENT'S ASSIGNMENT

- [ ] Do the Warm-Up in Workbook Lesson 2.8, Part A.
- [ ] Read Lesson 2.8 in this book with your teacher.
- [ ] Do the Create activity, Family Gallery, on your Studio Sheet (Workbook Lesson 2.8, Part B).
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.8, Part C.
- [ ] Finish Workbook Lesson 2.8: Part D.

LOOK AND WONDER

Think of a museum you have visited or seen in a video. How did you know where to look first?

A curator chooses which artworks to show, arranges them, and writes labels so visitors understand them. Now you'll be the curator of your own family gallery, using art you made in Units 1 and 2.

Curator's step	What to do
choose	Pick four to six of your best or most meaningful pieces.
group	Put works together that share a theme, culture, or technique.
arrange	Hang them at eye level, with space between; put the strongest piece where eyes go first.
label	Write a label for each: title, your name, materials, and one sentence about it.
present	Give a short tour and read your artist statement.

STEP BY STEP · WRITE AN ARTWORK LABEL

A label for a blue-and-white pinch pot.

1. Title: Waves and Clouds
2. Artist and materials: Ellie, air-dry clay and blue paint, 2026
3. One sentence: Inspired by Ming porcelain, I painted a wave border and a cloud in the center.

Look for: A good label tells the title, artist, materials, and the idea behind the work.

CREATE · FAMILY GALLERY

How can you share your art so visitors understand it?

You need: your artworks from Units 1 and 2; index cards for labels; tape or clips; a wall or table.

1 Choose four to six artworks and decide on a theme for your exhibit.

2 Write a label for each piece.

3 Arrange the gallery and invite your family.

4 Give a tour and read your artist statement.

Record: a photo or sketch of your gallery, your labels, and your artist statement.

★ KEY IDEA

Curators choose, arrange, and label art so visitors understand it. An artist statement explains your ideas and choices.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What does a curator do?

Answer: chooses, arranges, and labels art for a show

2. Name three things on an artwork label.

Answer: title, artist, materials (and an idea about the work)

3. Where should the strongest piece go?

Answer: where visitors' eyes go first

Workbook Answer Key · Lesson 2.8

#	Question	Answer
1	A person who arranges art for a show	curator
2	A show of artworks	exhibit
3	Plan your gallery: list each piece and where you'll hang it. (figure)	Answers vary. Check that every part is filled in and matches what the student did.
4	Write a label for one of your artworks: title, artist, materials, and one sentence about it.	All four parts included.
5	Write your artist statement: What is your exhibit about? Which piece are you proudest of, and why? What did you learn about art around the world?	Answers vary; answers all three questions.

#	Question	Answer
6	What does a curator do?	chooses, arranges, and labels art for a show
7	Name three things on an artwork label.	title, artist, materials (and an idea about the work)
8	Where should the strongest piece go?	where visitors' eyes go first
9	What did a family member notice or ask about during your tour?	Answers vary.

UNIT REVIEW · ANSWER KEY
Study before the unit test

About 30 minutes

Unit 2 Review — Answer Key

Use as a study session or portfolio sort before the review.

Answers

#	Question	Answer
1	symbol	stands for an idea
2	motif	a repeating design
3	calligraphy	artistic handwriting
4	porcelain	fine white ceramic
5	attribute	object that tells about a person
6	symmetry	matching sides
7	Gather your Unit 2 artwork. Which piece taught you the most about another culture? Why?	Answers vary.

PORTFOLIO REVIEW · ANSWER KEY
At the end of the unit
About 45 minutes

Unit 2 Portfolio Review — Answer Key

Answers

#	Question	Answer
1	Kente cloth comes from... A. China B. Ghana C. Mississippi	B. Ghana
2	Shan shui paintings show... A. portraits B. mountains and water C. buildings	B. mountains and water
3	Why was the Oba shown largest on Benin plaques?	to show he was most important
4	Name one of the Four Treasures.	brush, ink stick, inkstone, or paper
5	Which Mississippi building is Greek Revival?	the Old Capitol in Jackson
6	Name one column style.	Doric, Ionic, or Corinthian
7	Choose two artworks from different cultures in this unit. Describe one way they are alike and one way they are different, using art words.	Rubric: names two artworks/traditions (1); one accurate similarity (1); one accurate difference with art vocabulary (1).
8	Your teacher will score your family gallery with this rubric. Then write two sentences about the piece you are proudest of.	Rubric (1 point each): four or more works chosen; a clear theme; complete labels; thoughtful arrangement; artist statement; one piece shows a technique from this unit (symbols, pattern, brushstroke, distance, glaze design, or attributes).

Scoring

Score	What it means / next step
13–15 (85%+)	Excellent: strong skills and thoughtful choices.
11–12	Solid: revisit one technique.
Below 11	Redo one studio activity with support.

Grade 4 Art

Teacher Edition

A full year of Grade 4 arts: drawing, painting, and design; music; art history; theater and dance; media arts; and sculpture. Every lesson pairs looking closely at real artwork with hands-on studio time, and the year ends with a portfolio and a show.

This Teacher Edition holds everything needed to teach: a week-by-week pacing guide, a guided lesson plan for every lesson with timing, discussion prompts, common misconceptions, support and extension ideas, and complete answer keys.
